intellectuals This book marks a new attempt at understanding the activities of the various interest groups in their quest for democratic participation governmental responsiveness and openness They are utilizing new and unconventional modes of political participation such as the Occupy Central Movement cross class mobilization the use of technology and cyberspace and human rights activities with cross boundary implications for China s political development The book will be useful to students researchers officials diplomats and journalists interested in the political change of Hong Kong and the implications for mainland China *Women's Political Visibility and Media Access* Oladokun Omojola,2014-06-12 The constitutions of most countries frown at gender discrimination Local multinational and multilateral organizations in many developed and developing nations have instituted policies and taken actions that address cases of injustice against women But gender inequity appears to be an issue beyond what constitutional provisions and corporate strategies can address How for instance does a statutory provision guarantee the equal visibility of men and women in a news report especially in a neoliberal democracy where the general patriarchal character of the media aligns with the logic of commercialism which prioritizes profit and targets mainly those who have the means of purchase The invisibility of women in the media is a global issue and a great concern in Africa *Women s Political Visibility and Media Access The Case of Nigeria* however is about a country of over 160 million people a population roughly divided equally between male and female The book through empirical analyses and qualitative discourses agglomerates several perspectives regarding the visibility of women in the turbulent Nigerian political terrain and the response of the media in that direction in a concerted effort to resolve the burning issues of gender equality in Nigeria The book assesses the impact of aggressive tactics from women in the political arena conscious reporting of women by journalists and the increased use of ICTs by women as practical ways of bridging this wide gap *The Africana World* Mammo Muchie,Sanya Osha,Matlotleng P. Matlou,2012 Collected papers from the first Scramble for Africa conference held from 25-27 May 2011 **Political Science Revitalized** Michael Haas,2017-07-28 Political science has been described as a jigsaw puzzle with many specializations and subfields that do not talk to one another This book offers a solution that will advance the field from mid level theory to engage in cross fertilization through metatheoretical paradigms The book begins with a history of political science from the nineteenth century to the present followed by a paradigmatic history of political science including 6 metatheories in the pre behavioral era 12 in the behavioral era and the 4 major and several minor paradigms being developed today The book advances the goal of David Easton by proposing a neobehavioral political science including multimethodological innovations cross testing of paradigms and tenets of a new political science that can rise to become a truly theoretical science Each paradigm is diagramed to demonstrate the key concepts and their causal interconnections *Political Science Revitalized Filling the Jigsaw Puzzle with Paradigms* poses an exciting and provocative argument for the future of the vast field of political science *Teaching Political Science to Undergraduates* Laure Paquette,2016-01-15 By 2020 half of the world s population and most university students will have a supercomputer in their

pockets This revolution will affect the way students respond to higher education The university classroom must henceforth engage students and the classic lecture format alone might not be enough to do so This book answers the question how university students can learn in the classroom what they cannot learn in any other way The answer is inspired by options that are not available to political scientists in the way that they are in the laboratories for the sciences in the performances for the live arts and in the studios for visual arts as well as ideas that are already present but not widespread in the discipline problem solving and case studies as in the professional schools and simulation exercises in many other disciplines This book proposes therefore an active pedagogy for political science at a time when active pedagogy is more important than ever Prof Laure Paquette PhD has been a visiting researcher or professor in 23 countries She has advised several foreign governments as well as her own Canada and has published extensively in four languages This is her sixteenth book
