Politics And The Search For The Common Good:

Politics and the Search for the Common Good Hans Sluga, 2014-10-23 This book is a vigorous reassessment of the nature of politics and political theorizing **Towards a Politics of Communion** Anna Rowlands, 2021-12-02 Anna Rowlands offers a guide to the main time periods key figures documents and themes of thinking developed as Catholic Social Teaching CST A wealth of material has been produced by the Catholic Church during its long history which considers the implications of scripture doctrine and natural law for the way these elements live together in community most particularly in the tradition of social encyclicals dating from 1891 Rowlands takes a fresh approach in weaving overviews of the central principles with the development of thinking on political community and democracy migration and integral ecology and by considering the increasingly critical questions concerning the role of CST in a pluralist and post secular context As such this book offers both an incisive overview of this distinctive body of Catholic political theology and a new and challenging contribution to the debate about the transformative potential of CST in contemporary society ***The Routledge Companion to Theatre and Politics*** Peter Eckersall, Helena Grehan, 2019-03-14 The Routledge Companion to Theatre and Politics is a volume of critical essays provocations and interventions on the most important questions faced by today's writers critics audiences and theatre and performance makers Featuring texts written by scholars and artists who are diversely situated geographically culturally politically and institutionally its multiple perspectives broadly address the question How can we be political now To respond to this question Peter Eckersall and Helena Grehan have created eight galvanising themes as frameworks or rubrics to rethink the critical creative and activist perspectives on questions of politics and theatre Each theme is linked to a set of guiding keywords Post post consensus post Brexit post Fukushima post neoliberalism post humanism post global financial crisis post acting the real Assembly assemblage disappearance permission community citizen protest refugee Gap who is in and out what can be seen heard funded allowed Institution visibility darkness inclusion rules Machine biodata surveillance economy mediatization Message performance and conviction didacticism propaganda End suffering stasis collapse entropy Re reset rescale reanimate reimagine replay how to bring complexity back into the public arena how art can help to do this These themes were developed in conversation with key thinkers and artists in the field and the resulting texts engage with artistic works across a range of modes including traditional theatre contemporary performance public protest events activism and community and participatory theatre Suitable for academics performance makers and students The Routledge Companion to Theatre and Politics explores questions of how to be political in the early 21st century by exploring how theatre and performance might provoke unsettle reinforce or productively destabilise the status quo **The Limits of a Divided Nation with Perspectives from the Bible** Michael Ufok Udoekpo, 2020-01-31 Michael Udoekpo's work brilliantly and pastorally discusses the issues of conflict friction and disunity in the world and in Nigeria in particular from biblical historical and sociocultural perspectives These issues he stresses are endemic in various fabrics of the Nigerian society

traceable to the family as the foundation of any given society They are also found in religious political and media groups Contributing factors Udoekpo argues are materialism infidelity relativism and fundamentalism Others are ethnocentrism anthropocentrism ignorance bribery and corruption with other forms of injustices Drawing from the Bible Udoekpo proposes prayer proper education truth telling restoration of family values interreligious and cultural dialogue ecumenism enforcement of rule of law faith and absolute trust in God as antidotes to conflict violence friction and disunity in our contemporary society Practical Politics Michael Keith Briand,1999 This wise and sensible guide to practicing democracy will be invaluable to members of community and neighborhood organizations parent teacher associations local government citizens groups and other grass roots organizations It will also be of interest to anyone wanting a deeper understanding of how democracy should work and why it often fails to do just that **In Search of Politics** Zygmunt Bauman,2013-07-03 We live in a world which no longer questions itself which lives from one day to another managing successive crises and struggling to brace itself for new ones without knowing where it is going and without trying to plan the itinerary And everything important in our lives livelihood human bonds partnerships neighbourhood goals worth pursuing and dangers to avoid feels transient precarious vulnerable insecure uncertain risky Is there a connection between the shape of the world we inhabit and the way we live our lives Exploring that connection and finding out just how close it is is the main concern of this book What is at stake in this inquiry is the possibility of re building the private public space where private troubles and public issues meet and where citizens engage in dialogue in order to govern themselves Individual liberty can only be a product of collective work it can only be collectively secured and guaranteed And yet today we are moving towards a privatization of the means to secure individual liberty If seen as a therapy for the present ills this is bound to produce effects of a most sinister kind The act of translating private troubles into public issues is in danger of falling into disuse and being forgotten The argument of this book is that making the translation possible again is an urgent and vital imperative for the renewal of politics today This new book by Zygmunt Bauman one of the most original and creative thinkers of our time will be of particular interest to students of sociology politics and social and political theory Encyclopedia of Heroism Studies ,2024-10-01 This reference work is an important resource in the growing field of heroism studies It presents concepts research and events key to understanding heroism heroic leadership heroism development heroism science and their relevant applications to businesses organizations clinical psychology human wellness human growth potential public health social justice social activism and the humanities The encyclopedia emphasizes five key realms of theory and application Business and organization focusing on management effectiveness emotional intelligence empowerment ethics transformational leadership product branding motivation employee wellness entrepreneurship and whistleblowers clinical health psychology and public health focusing on stress and trauma maltreatment emotional distress bullying psychopathy depression anxiety family disfunction chronic illness and healthcare workers wellbeing human growth and positive

The Political Philosophy of Pierre Manent Joseph R. Wood, 2024-08-30 This book presents and evaluates the understanding of political form in the work of Pierre Manent The study of political form is Manent s central philosophical task He is interested in the nature of man in the action that makes us human and thus in politics and political action as privileged windows into human nature and what it is to be human Manent places himself in the classical political tradition with its foundations in human nature and in a politics that accords with nature He also situates himself within a triangle of faith philosophy and politics all of which interest him as part of the reality of things even as he avoids an exclusive commitment to any one vertex in his investigation The book first examines the major influences on Manent the overarching questions that guide his work on political form the theologico political question and the question of the modern difference with the ancient view of man and politics and his two intertwined paths of inquiry into political events and political thought Manent describes political forms as the modes of human association that no science has taken as its specific object City empire Church national monarchy or nation state and modern state are the principal forms that he examines The book discusses Manent s thinking on each form in turn together with the tensions that propel the changes or motion in political form that Manent sees as driving and revealing the course of European political development Using the work of Alasdair MacIntyre Russell Hittinger tienne Gilson Robert Sokolowski and Francis Slade the book evaluates Manent s insights into the modern state and political condition which he judges to be exhausted as well as his call for the preservation of the form of the nation marked by Christianity

Authority and the Metaphysics of Political Communities Gabriele De Anna, 2020-03-11 This book explores the metaphysics of political communities. It discusses how and why a plurality of individuals becomes a political unity, what principles or forces keep that unity together, and what threats that unity can be faced with. In Part I, the author justifies the need for the notion of substance in metaphysics in general and in the metaphysics of politics in particular. He spells out a moderately realist theory of substances and of their principles of unity, which supports substantial gradualism. Part II concerns action theory and the nature of practical reason. The author claims that the acknowledgement of reasons by agents is constitutive of action and that normativity depends on the role of the good in the formation of reasons. Finally, in Part III, the author addresses the notion of political community. He claims that the principle of unity of a political community is its authority to give members of the community moral reasons for action. This suggests a middle way between liberal individualism and organicism, and the author demonstrates the significance of this view by discussing current political issues such as the role of religion in the public sphere and the political significance of cultural identity. *Authority and the Metaphysics of Political Communities* will be of interest to researchers and advanced students working in social metaphysics, political philosophy, philosophy of action, and philosophy of the social sciences.

Politics for a Pilgrim Church Thomas J. Bushlack, 2015-10-12 Presents an innovative constructive alternative to Christian involvement in the culture wars. Church leaders and scholars have long wrestled with what should provide a guiding vision for Christian engagement in culture and politics. In this book, Thomas Bushlack argues that a retrieval of Thomas Aquinas's understanding of civic virtue provides important resources for guiding this engagement today. Bushlack suggests that Aquinas's vision of the pilgrim church provides a fitting model for seeking the earthly common good of the political community, and he notes the features of a Thomistic account of justice and civic virtue that remain particularly salient for the twenty-first century. The book concludes with suggestions for cultivating a Christian rhetoric of the common good as an alternative to the predominant forms of discourse fostered within the culture wars that have been so divisive.

Searching for a Universal Ethic William C. Mattison III, John Berkman, 2014-12-29 In this volume twenty three major scholars comment on and critically evaluate In Search of a Universal Ethic the 2009 document written by the International Theological Commission ITC of the Catholic Church That historic document represents an official Church contribution both to a more adequate understanding of a universal ethic and to Catholicism's own tradition of reflection on natural law The essays in this book reflect the ITC document's complementary emphases of dialogue across traditions universal ethic and reflection on broadly applicable ethical guidance within the Christian tradition natural law Among other things the document situates the natural law ethical tradition within the larger search for a universal ethic Along with its insightful essays Searching for a Universal Ethic offers for the first time in published form the Vatican's official English translation of In Search of a Universal Ethic Contributors John Berkman Serge Thomas Bonino O P David Burrell C S C Lisa Sowle Cahill Joseph E Capizzi David Cloutier Anver M Emon Robert P George Sherif Girgis Jennifer A Herdt Russell Hittinger M Cathleen Kaveny Anthony J Kelly C Ss R Fergus Kerr O P Steven A Long William C Mattison III Gilbert Meilaender Livio Melina Michael S Northcott David Novak Jean Porter Martin Rhonheimer Tracey Rowland *Christianity and Politics* C. C. Pecknold, 2010-08-06 It is not simply for rhetorical flourish that politicians so regularly invoke God's blessings on the country It is because the relatively new form of power we call the nation state arose out of a Western political imagination steeped in Christianity In this brief guide to the history of Christianity and politics Pecknold shows how early Christianity reshaped the Western political imagination with its new theological claims about eschatological time participation and communion with God and neighbor The ancient view of the Church as the mystical body of Christ is singled out in particular as the author traces shifts in its use and meaning throughout the early medieval and modern periods shifts in how we understand the nature of the person community and the moral conscience that would give birth to a new relationship between Christianity and politics While we have many accounts of this narrative from either political or ecclesiastical history we have few that avoid the artificial separation of the two This book fills that gap and presents a readable concise and thought provoking introduction to what is at stake in the contentious relationship between Christianity and politics Walking with Ignatius Arturo Sosa, 2022-01-03 Walking with Ignatius is a celebration of 500 years of the Society of Jesus as seen through the eyes of its first Latin American Father General Arturo Sosa Comprised of interviews with Father General conducted over a period of two years by Dario Menor Walking with Ignatius retraces the inner tension both personal and communal that defines the quest for meaning over

the ages from the time when St Ignatius begged for alms to sustain his studies to a world transformed by globalisation Menor's questions reflect the spirit of the Ignatian practice of discernment unafraid to ask questions and to face up to the challenges of the present Menor and Sosa engage in a spiritual conversation that covers such topics as the life of Ignatius the life story of Sosa the challenge of the unsettling twenty first century and the future of the Church With great care Sosa sifts through the past present and future of the Society of Jesus and of the Church The reader is invited in the Ignatian spirit into a conversation about the future direction of the Church in which the question of being a Catholic is replaced with the question of how we become Catholics Included is a section by section guide complete with bible references pointers for prayer and tips for spiritual conversation that encourages the reader to embark on a spiritual journey of their own Intended for those within and outside the Ignatian family Walking with Ignatius is both an exemplar of spiritual conversation in action and a response to Pope Francis's call for Jesuits to bring the practice of discernment to the world
