Religion and Regimes Mehran Tamadonfar, Ted G. Jelen, 2013-11-26 This work is a collection of essays that describe and analyze religion and regime relations in various nations in the contemporary world The contributors examine patterns of interaction between religious actors and national governments that include separation support and opposition In general the contributors find that most countries have a majority or plurality religious tradition which will seek

a privileged position in public life The nature of the relationship between such traditions and national policy is largely determined by the nature of opposition A pattern of quasi establishment is most common in settings in which opposition to a dominant religious tradition is explicitly religious However in some instances the dominant tradition is associated with a discredited prior regime in which a pattern of legal separation is most common Conversely in some nations a dominant religion is for historical reasons strong associated with national identity Such regimes are often characterized by a lazy monopoly in which the public influence of religion is reduced

US Assistance, Development, and Hierarchy in the Middle East Anne Mariel Zimmermann, 2016-12-21 What does US aid buy in the Middle East Drawing on extensive primary source research this book examines the role and consequences of US aid to three countries in the Middle East The author argues that the political survival strategies of incumbent leaders in Egypt Israel and Jordan shaped not only the type of aid that these countries received from the US but also its developmental and geopolitical impact Leaders who relied heavily on distributing selective benefits to their ruling coalitions were more likely to receive forms of US aid that complemented their distributive political economies and undermined the state s developmental capacity which simultaneously rendered them more dependent on US resources and more likely to cede fragments of their sovereignty to their major donor Non distributive leaders however could reap the full benefits of highly discretionary and technologically sophisticated aid incorporating it into developmental policies that rendered them progressively less dependent on Washington and better able to say no when it was in their best interest
