

## Populism and the Election of 1896

### Central Historical Question:

*Why did the Populist Party attract millions of supporters?*

#### Materials:

- Populism PPT
- Copies of Document A: Mary Elizabeth Lease speech
- Transparency of Mary Elizabeth Lease speech
- Copies of Document B: William Jennings Bryan speech

#### Plan of Instruction:

1. Introduction mini-lecture: *In the 1870s and 1880s, life for farmers became increasingly difficult. Farmers in the West and South decided to organize politically. Their party was called the Populist Party.*

Mini-lecture on Populism: Powerpoint

**Slide 2:** Review farmers' problems

**Slide 3:** One of the main things farmers needed was cash, so one of their main goals was making the dollar worth less so that there would be more cash in the system.

They also pushed for political reforms that gave people more power in politics. They also tried to unite with workers in industry.

**Slide 4:** Farmers began organizing as early as the 1860s. At first they focused on forming collectives (the Grange), in an effort to raise prices by uniting and holding grain from the market. But the railroads and banks were too powerful, so that's when they started to get political.

As you can see with the formation of the Colored Farmers' Alliance, black farmers and white farmers didn't unite, especially in the South. Racism was still too strong.

**Slide 5:** In 1892, they ran the first Populist presidential candidate and he did extremely well, considering he was a third-party candidate.

**Slide 6:** In 1896, they realized that if they were going to have their issues dealt with nationally, they had to support one of the major candidates. William Jennings Bryan was a Democratic candidate who pledged to support the silver issue.

Muñoz, 2022-07-12 Mexican presidents Lázaro Cárdenas 1934-1940 and Luis Echeverría 1970-1976 used populist politics in an effort to obtain broad based popular support for their presidential goals. In spite of differences in administrative plans both aimed to close political divisions within society, extend government programs to those on the margins of national life and prevent foreign ideologies and practices from disrupting domestic politics. As different as they were in political style both relied on appealing to the public through mass media, clothing styles and music. This volume brings together twelve original essays that explore the concept of populism in twentieth century Mexico. Contributors analyze the presidencies of two of the century's most clearly populist figures, evaluating them against each other and in light of other Latin American and Mexican populist leaders. In order to examine both positive and negative effects of populist political styles, contributors also show how groups as diverse as wild yam pickers in 1970s Oaxaca and intellectuals in 1930s Mexico City had access to and affected government projects. The chapters on the Echeverría presidency are written by contributors at the forefront of emerging scholarship on this topic and demonstrate new approaches to this critical period in Mexican history. Through comparisons to Echeverría, contributors also shed new light on the Cárdenas presidency, suggesting fresh areas of investigation into the work of Mexico's quintessentially populist leader. Ranging in approach from environmental history to labor history, the essays in this volume present a complex picture of twentieth century populism in Mexico.
