The Technology of Cake Making A.J. Bent, E.B. Bennion, G.S.T. Bamford, 2013-03-09 The popularity of the 1973 fifth edition of *The Technology of Cake Making* has continued in many of the English speaking countries throughout the world This sixth edition has been comprehensively revised and brought up to date with new chapters on Cream butter and milkfat products Lactose Yeast aeration Emulsions and emulsifiers Water activity and Reduced sugar Eggs and egg products Baking fats and lower fat goods The chapters on Sugars Chemical aeration Nuts in confectionery Chocolate Pastries Nutritional value and Packaging have been completely rewritten The increased need for the continuous development of new products does not of necessity mean that new technology has to be constantly introduced Many of the good old favourites may continue to be produced for many years and they form suitable bench marks for new product development The sixth edition introduces the use of relative density to replace specific volume as a measure of the amount of aeration in a cake batter the use of relative density is in line with international agreement Specific volume is kept as a measurement of baked product volume since the industry is comfortable with the concept that subject to an upper limit an increase in specific volume coincides with improvement in cake quality

be fit for a monarch's table or served from the bakestone of a lowly farm labourer. This book charts innovations, happy accidents and some of the most downright bizarre baked foods ever created. Everything has a history but food history is special because it tells so much about our culture and society, our desires and our weaknesses from the broad sweep of bread creating human civilisation to the invention of the wedding cake, the creation of the whisky, the purpose of the fish heads in a star gazy pie or the fact that mince pies used to be meaty. When we think of the evolution of something we think every step is an improvement, an incremental elevation toward some peak of perfection as technology improves. This is not always the case. Sometimes things have to become simpler, sometimes knowledge is lost and skills forgotten. As a baker of historical foods, Neil Buttery demonstrates that forgotten recipes and traditional techniques are worth trying out and mentions a few that should perhaps be left in the past. The reader will be inspired by the characters, creations and inventions of the past to be better and more adventurous bakers.

The Founders of American Cuisine Harry Haff, 2015-05-07. This work describes the lives, careers and significance of seven chefs and authors who had profound influences on the creation of American cuisine: Amelia Simmons, author of the first known American cookbook; Mary Randolph, whose *The Virginia Housewife* is considered the first regional American cookbook; Miss Leslie and her bestselling 19th century work; former slave Mrs Abby Fisher and her book on Southern cooking; Lafcadio Hearn's *La Cuisine Creole*; Charles Ranhofer's influence on the role of the modern chef; and Victor Hirtzler and his California cuisine. The second section includes selected recipes from each author's books with notes to aid adaptation by the modern cook. The Rural Cook Book, 1907. **The Prawn Cocktail Years** Lindsey Bareham, Simon Hopkinson, 2020-08-13. While Lindsey Bareham was helping Simon Hopkinson put together his best-selling book *Roast Chicken and Other Stories*, the two of them began to reminisce about hotel and restaurant dishes they had grown up with and always loved: those Cinderellas of the kitchen that we abandoned in our quest for the wilder shores of gastronomy. Classics such as Duck à l'Orange, Wiener Schnitzel, Moussaka, Garlic Mushrooms and, of course, Prawn Cocktail have all been slung out like old lovers but when made with fine fresh ingredients and prepared with care and a genuine love of good eating, these former favourites should grace the most discerning of tables. *The Prawn Cocktail Years* sets out to rehabilitate the food we once loved and found exciting. In so doing, the authors take us on a cook's tour of the legendary post-war hotels and gentlemen's clubs with their Mulligatawny and Shepherd's Pie to the bistros of Swinging London where Pat Maison and sizzling Escargots excited the braver palate. Then there were the first Italian trattorias where Saltimbocca and Oranges in Caramel were the order of the day and the Continental restaurants with their exotic offerings of Beef Stroganoff, Chicken Kiev and Rhum Baba. Recipes for all these old favourites have been brought back to life as well as those classics that were once described as the Great British Meal: Prawn Cocktail, Steak Garni with Chips and Black Forest Gateau. Cooked as they should be, this much derided and often ridiculed dinner is still something very special indeed. *The prawn cocktail years are staging a comeback.* *Tea and Cake with Lisa*
