The Foundation secures anomalies with the goal of preventing them from falling into the hands of civilian or rival agencies through extensive observation and surveillance and by acting to intercept such anomalies at the earliest opportunity. Contain. The Foundation contains anomalies with the goal of preventing their influence or effects from spreading by either relocating, concealing or dismantling such anomalies or by suppressing or preventing public dissemination of knowledge thereof. Protect. The Foundation protects humanity from the effects of such anomalies as well as the anomalies themselves until such time that they are either fully understood or new theories of science can be devised based on their properties and behavior.
