Catharine Wilson takes readers into families daily lives the intricacies of their labour exchange and their workways feasts and hospitality Through the prism of the bee and a close reading of the diaries she uncovers the subtle social politics of mutual dependency the expectations neighbours had of each other and their ways of managing conflict and crisis This book adds to the literature on cooperative work that focuses on evaluating its economic efficiency and complicates histories of capitalism that place communal values at odds with market orientation Beautifully written engaging and richly detailed and illustrated Being Neighbours reveals the visceral textures of rural life
