Popular Culture Guided Reading Answer Key:

African Youth in Contemporary Literature and Popular Culture Vivian Yenika-Agbaw, Lindah Mhando, 2014-01-21

This book explores how African youth are depicted in contemporary literature and popular culture and discusses the different ways by which they attempt to construct personal and cultural identities through popular culture and social media outlets. The contributors approach the subject from an interdisciplinary perspective looking at images in children's and adolescent literature from Africa and the African diaspora from Nollywood and Hollywood movies from popular magazines and from youth cultures encountered directly through field experiences. The findings reveal that there are many stereotypes about Africa, African youth, and black cultures, and that African youth are aware of these. Since they juggle multiple identities shaped by their ethnicities, race, and religion, it is often a challenge for them to define themselves. As they also share a global youth culture that transcends these cultural markers, some take advantage of media outlets to voice their concerns and participate in political struggles. Others simply use these to promote their personal interests. Contributors ponder the challenges involved in constructing unique identities, offering ideas on how African youth are doing so successfully or not in different parts of the continent and the African diaspora, and thus offer new possibilities for youth studies.

Teaching towards Democracy with Postmodern and Popular Culture Texts Patricia Paugh, Tricia Kress, Robert Lake, 2014-11-26. This edited volume supports implementation of a critical literacy of popular culture for new times. It explores popular and media texts that are meaningful to youth and their lives. It questions how these texts position youth as literate social practitioners. Based on theories of Critical and New Literacies that encourage questioning of social norms, the chapters challenge an audience of teachers, teacher educators, and literacy-focused scholars in higher education to creatively integrate popular and media texts into their curriculum. Focal texts include science fiction, dystopian, and other youth-central novels, picture books that disrupt traditional narratives, graphic novels, video games, other arts-based texts, film, novel hybrids, and even the lives of youth readers themselves as texts that offer rich possibilities for transformative literacy. Syllabi and concrete examples of classroom practices have been included by each chapter author.
