Building a New Economy D. Hugh Whittaker,2024-01-23 Japan is attempting to build a new economy It goes by various names such as Society 5 0 sustainable capitalism and new form of capitalism It is to be constructed through digital and green transformation and a virtuous cycle of growth and distribution The effort faces strong headwinds including demographic

decline and ageing Japan's external energy dependence and geopolitical turbulence and the legacies of Japan's lost decades. Nonetheless, since 2015 a path has been identified that steers between Big Tech market oligopoly on the one hand and an overbearing state on the other. For others facing the same post-neoliberal sustainability transformation challenges as Japan, this public-private coordinated building effort is noteworthy. Building a New Economy uses an evolutionary conceptual framework of states and markets, organizations and technology, and institutional change. It shows how the institutional coherence of the manufacturing-centred postwar model broke down and was followed by the ideological and institutional dissonance of the lost decades. However, new institutional building blocks have been identified and partially assembled, which could lead Japan towards a new model which is more open and adaptive. These blocks include a reconfigured developmental state and new forms of coordination with and within the corporate sector at times encompassing civil society. Importantly, for a country that has favoured social stability over creative destruction and has struggled with change, the path forward may require controlled disequilibrium of institutions rather than tight coherence. Society 5.0 and the new form of capitalism claim to be people-centred, making them so will be the crucial challenge. *Current Affairs Capsule October 2019*

Aaker, 2020-03-24. In this long-awaited book from the world's premier brand expert and author of the seminal work *Building Strong Brands*, David Aaker shows managers how to construct a brand portfolio strategy that will support a company's business strategy and create relevance, differentiation, energy, leverage, and clarity. Building on case studies of world-class brands such as Dell, Disney, Microsoft, Sony, Dove, Intel, CitiGroup, and PowerBar, Aaker demonstrates how powerful cohesive brand strategies have enabled managers to revitalize brands, support business growth, and create discipline in confused, bloated portfolios of master brands, subbrands, endorser brands, co-brands, and brand extensions. Renowned brand guru Aaker demonstrates that assuring that each brand in the portfolio has a clear role and actively reinforces and supports the other portfolio brands will profoundly affect the firm's profitability. Brand Portfolio Strategy is required reading not only for brand managers but for all managers with bottom-line responsibility to their shareholders. **PC Magazine**, 2006. *Who Owns Whom*, 2005.
