**Gettin' Around** Jürgen E. Grandt, 2018-12-15 Gettin Around examines how the global jazz aesthetic strives in various ways toward an imaginative reconfiguration of a humanity that transcends entrenched borders of ethnicity and nationhood while at the same time remaining keenly aware of the exigencies of history J rgen E Grandt deliberately refrains

from a narrow empirical definition of jazz or of transnationalism and true to the jazz aesthetic itself opts for a broader more inclusive scope even as he listens carefully and closely to jazz's variegated soundtrack. Such an approach seeks not only to avoid the museal whiff of a golden age time past but also to broaden the appeal and the applicability of the overall critical argument. For Grandt, international simply designates currents of people, ideas and goods between distinct geopolitical entities or nation states whereas transnational refers to liminal dynamics that transcend preordained borderlines occurring above, below, beside or along the outer contours of nation states. *Gettin' Around* offers a long overdue consideration of the ways in which jazz music can inform critical practice in the field of transnational American studies and grounds these studies in specifically African American cultural contexts. Economic Choices in a Warming World Christian de

Perthuis, 2011-03-10 Since the publication of the Stern Review, economists have started to ask more normative questions about climate change. Should we act now or tomorrow? What is the best theoretical carbon price to reach long term abatement targets? How do we discount the long term costs and benefits of climate change? This provocative book argues that these are the wrong sorts of questions to ask because they don't take into account the policies that have already been implemented. Instead, it urges us to concentrate on existing policies and tools by showing how the development of carbon markets could dramatically reduce world greenhouse gas (GHG) emissions, triggering policies to build a new low carbon energy system while restructuring the way agriculture interacts with forests. This provides an innovative perspective on how a post-Kyoto international climate regime could emerge from agreements between the main GHG emitters capping their emissions and building an international carbon market. Dirty Diplomacy Craig Murray, 2011-05-31 With all the pace and drama of a political thriller, *Dirty Diplomacy* is a riveting account of a young fast living ambassador's battle against a ruthless dictatorship in Central Asia and the craven political expediency in Washington and London that eventually cost him his job. Craig Murray is no ordinary diplomat. He enjoys a drink or three and if it's in the company of a pretty girl, so much the better. Murray's scant regard for the rules of the game also extends to his job. When in the first few weeks of his posting to the little known Central Asian Republic of Uzbekistan, he comes across photographs of a political dissident who has literally been boiled to death, he ignores diplomatic nicety and calls it for what it is: torture of the cruelest sort. Murray soon discovers that this is no one-off incident; fierce abuse of those opposing the government is rife. It's not long before he is tearing around the country in his embassy Land Rover, shaking off Uzbek police tails and crashing through roadblocks to meet with dissidents and expose their persecutors. He even confronts the despotic president Islam Karimov face to face. But Murray's bosses in London's Foreign Office, ever mindful of their senior partners in Washington, don't want to upset the apple cart. Karimov is an ally in the newly announced Global War on Terror. His country is host to a big American air base. The last thing they need is a battling young diplomat stirring things up. In Craig
