parenting strategies the younger the better Getting em young and purposefully starting parenting with love and logic from the get go is the way to save a lot of heartache later Better Safe than Sorry Your child might begin displaying behavioral issues as early as the toddler stage don t make this the heart sinking moment when you discover the great gaps in your discipline strategies No matter how argumentative your young child is whilst you should try hard not to overreact to defiance do not shirk from setting out clearly what is expected As with so much in the parent child sphere the motto holds true lead by example and be consistent How Parenting the Strong Willed Child Can be Enjoyable In all probability you see and applaud characteristics in your strong willed child that remind you of yourself things that made you the success that you are So while there will also be elements that perplex you and require careful navigation on balance your strong willed characterful daughter or son is a blessing requiring nothing but your wise parenting with love and logic a strong independent interesting and self determining person will emerge Bringing up your strong willed child might mean standing up to those who dub him or her difficult and stubborn You might have to defend your own methods too The type of child who has to learn from experience seeing in person the consequences of his actions can seem to be defying authority Teachers and parents when correcting behavior need to refer matter of factly to an established rule as though set in stone and at the same time allow a margin of flexibility where the child can seem to exercise some decision making power This might take the form of reminding your kid that homework has to be done before the playing of games on the computer Then you add But if you let me help you with how to set out those math problems on the page it ll be time for playing before you know it
