believes that effectively tackling the housing crisis requires that cities support both tenant protections and housing abundance. He offers readers more than 50 policy recommendations beginning with a set of principles and general recommendations that should apply to all housing policy. The remaining recommendations are organized by what he calls the Three S's of Supply, Stability, and Subsidy. Phillips makes a moral and economic case for why each is essential and recommendations for making them work together. There is no single solution to the housing crisis; it will require a comprehensive approach backed by strong, diverse coalitions. *The Affordable City* is an essential tool for professionals and advocates working to improve affordability and increase community resilience through local action. **Oakland Army Base,**
