Rosenberg,2012-12-06 It is generally agreed that great men transcend their time while ordinary men remain rooted in it This is why if we want to know what life was like in days gone by we must study those who were most representative of their age those individuals who though they may have achieved a modicum of fame or notoriety are now because of their limited abilities and outlook largely forgotten The great figures involved in the political and religious controversies that took of the seventeenth century and the beginning place in Holland towards the end of the eighteenth men such as Bayle Jurieu Le Clerc and others who were in the forefront of what has been aptly termed as the crise de la conscience europeenne these figures have been the object of extensive investigation The minor personages of this period on the other hand have received little attention For this reason in a previous study 2 I examined the life and work of one of these minor figures and tried to show how he was representative of those French

Huguenots who came to Holland in the latter half of the seventeenth century who settled in relatively remote places and who made an effort to integrate themselves and gain acceptance in Dutch provincial society *Bibliographie de la France* ,1890

Bibliographie de l'Empire français ou Journal général de l'imprimerie et de la librairie *From the Cloister to the State*

Annalena Müller,2021-09-09 *From the Cloister to the State* examines the French order of Fontevraud one of the largest monastic networks under female leadership in medieval and early modern Europe Founded in 1100 and comprised of both monks and nuns the order had grown to consist of at least seventy eight priories by the late Middle Ages Endowed with vast territorial possessions throughout western France Fontevraud became one of the most powerful religious institutions in the country However unaware of its institutional might and economic wealth scholars have tended to focus on Fontevraud's seemingly unusual gender hierarchy while bypassing inquiries on practices of abbatial authority in Fontevraud and beyond This book reveals medieval Fontevraud as an aristocratic cloister where noble women governed It also discusses the value of Fontevraud's extensive network for the geopolitical ambitions of the dukes of Brittany the counts of Bourbon Vendôme and during the Wars of Religion the kings of France In addition to Fontevraud's political role during the Wars of Religion the book also examines the order's reforms implemented by Marie de Bretagne and her successors Renée and Louise de Bourbon Vendôme These Bourbon abbesses centralized the order's administration cut the ties between priories and local aristocratic families and successfully established the Bourbon Vendômes as the only patrons of the vast and wealthy network This book is essential reading for scholars and students of medieval and early modern history as well as those interested in political history and the history of religion **Journal général de l'imprimerie et de la librairie** ,1890 *Bibliographie de la France, ou Journal général de l'imprimerie et de la librairie* ,1870
