Congress. House. Committee on Ways and Means. Subcommittee on Health,1990 How Children Read Biblical Narrative Melody Renee Briggs,2017-05-31 How do children read the Bible This book makes a major contribution to this underexplored area by analyzing how children interpret Bible stories focused around an empirical investigation of one group of eleven to fourteen year old children and their readings of the Gospel of Luke The first section of the study establishes the nature of the text and the readers in this project exploring the Gospel of Luke as a narrative of Jesus birth life death and resurrection and then looking at the developmental traits of children as readers The next section offers a model account of how biblical scholars can investigate empirical readings of Scripture by describing the methods used to

bring together one group of child readers and Luke The third section then analyzes the resulting multitude of interpretations that the children offered in their reading of the book concentrating on the key trends in their interpretive strategies It critiques the children's readings of Luke but it also points to some of the surprising and beneficial results of reading Luke using the interpretive strategies of a child Children's Reading Comprehension and Assessment Scott G. Trends in Learning Research Samuel N. Hogan, 2006

Learning as used here refers to concerted activity that increases the capacity and willingness of individuals, groups, organisations and communities to acquire and productively apply new knowledge and skills to grow and mature and to adapt successfully to changes and challenges. Such learning empowers individuals and organisations to make wise choices, solve problems and break new ground. In particular, it is sustainable; it is a lifelong, renewable process for people and for the

institutions that serves people Learning certainly includes academic studies and occupational training through high school and beyond but also encompasses the physical cognitive emotional and social development of children in the earliest years of their lives This book presents new research in this explosive field
