

CRS Report for Congress

The Peace Corps: Current Issues

Curt Tarnoff
Specialist in Foreign Affairs
Foreign Affairs, Defense, and Trade Division

Summary

When the 111th Congress convenes in 2009, it is expected to finalize the FY2009 appropriations level and consider the FY2010 level of funding for the Peace Corps. Congress may also address a Peace Corps re-authorization and related issues. This report will be updated as events warrant.

Generally viewed positively by the public and widely supported in Congress, the Peace Corps, the U.S. agency that provides volunteer skills internationally, drew congressional attention in recent years largely due to a 2002 Presidential initiative to double the size of the volunteer force. While this effort produced re-authorization bills in the 108th, 109th, and 110th Congresses, some of which were approved by House or Senate, none made it into law. In 2009, the 111th Congress will consider the new President's annual funding request for the Peace Corps. In addition, a new re-authorization effort is expected by many observers.

Background

Founded in 1961, the Peace Corps has sought to meet its legislative mandate of promoting world peace and friendship by sending American volunteers to serve at the grassroots level in villages and towns in all corners of the globe. Living and working with ordinary people, volunteers have contributed in a variety of capacities — such as teachers, environmental specialists, health promoters, and small business advisers — to improving the lives of those they serve and helping others understand American culture. They also seek to share their understanding of other countries with Americans back home through efforts like the Paul D. Coverdell World Wise School program, which links serving volunteers with U.S. elementary school classrooms. To date, more than 187,000 Peace Corps volunteers have served in 139 countries. About 7,876 volunteers currently serve in 76 nations. Ronald A. Tschetter, a former volunteer, is the current Peace Corps Director.

In addition to its basic two-year tour of duty, the Peace Corps introduced in 1996 an initiative called Peace Corps Response (formerly Crisis Corps), drawing on former volunteers to provide short-term (up to six months) emergency and humanitarian assistance at the community level with NGOs, relief, and other development organizations. Hundreds of Peace Corps Response volunteers have served in 40

decade congressional websites have become the primary way constituents communicate with their members and a prominent place for members to communicate with constituents Yet as we move toward the third decade of the 21st century little work has systematically analyzed this forum as a distinct representational space In this book Jocelyn Evans and Jessica Hayden offer a fresh timely and mixed methods approach for understanding how the emergence of virtual offices has changed the representational relationship between constituents and members of Congress Utilizing strong theoretical foundations a broad historical perspective elite interviews and rich original datasets Evans and Hayden present evidence that virtual offices operate as a distinct representational space and they demonstrate that their use has resulted in unprecedented and ill understood changes in representational behavior Congressional Communication in the Digital Age contributes to the scholarship on representation theory and its application to the contemporary Congress It is valuable reading for students and researchers interested in American politics political communication and legislative politics U.S.-Chinese Relations Robert G.
