

"The Jungle" by Upton Sinclair

The novel *The Jungle* by Upton Sinclair narrates the life story of Jurgis and the tortures that he suffers since his arrival in Chicago with his family. Throughout the story, Sinclair describes the hardships that Jurgis and his family face in this capitalist country. Sinclair, in depth, shows the drawbacks of capitalism through Jurgis's and others life working in Packingtown. He then, towards the end of the novel introduces socialism as a solution to capitalism and its wickedness. Sinclair tries to persuade his readers to his views that "capitalism is immoral" and "socialism is the only solution to capitalism" He indeed backs up his argument with agreeable evidence and thrives to demonstrate the goodness of socialism. Socialism is better than capitalism and do can help the working men with his or her problems because it eliminates competition between the working class, promotes gender equality and provides an equal and a fair justice system.

The main reason why socialism works better than capitalism is because it eliminates competition among people for survival. Sinclair mentions this key point as an advantage for socialism. Ostrinski describes the rising competition between people as "The workers were dependent upon a job to exist from day to day, and so they bid against each other." We could see this competition thoroughly in Packingtown and within the story. Just as Sinclair mentions, socialism can break these rivalries among people and can bring back cooperation and unity among people. It can happen when socialism exists, where properties are communal or common within the society rather than under the control of the capitalists; when the salaries are higher for the common working class rather than diminished to increase the profits of capitalists. In a capitalist country, due to the low wages that the common people receive, most of them turn towards socialism.

A Mirror in the Roadway Morris Dickstein, 2021-08-10 In a famous passage in *The Red and the Black* the French writer Stendhal described the novel as a mirror being carried along a roadway In the twentieth century this was derided as a naive notion of realism Instead modern writers experimented with creative forms of invention and dislocation Deconstructive theorists went even further questioning whether literature had any real reference to a world outside its own language while traditional historians challenged whether novels gave a trustworthy representation of history and society In this book Morris Dickstein reinterprets Stendhal's metaphor and tracks the different worlds of a wide array of twentieth century writers from realists like Theodore Dreiser Sinclair Lewis Edith Wharton and Willa Cather through modernists like Franz Kafka and Samuel Beckett to wildly inventive postwar writers like Saul Bellow Günter Grass Mary McCarthy George Orwell Philip Roth and Gabriel García Márquez Dickstein argues that fiction will always yield rich insight into its subject and that literature can also be a form of historical understanding Writers refract the world through their forms and sensibilities He shows how the work of these writers recaptures yet also transforms the life around them the world inside them and the universe of language and feeling they share with their readers Through lively and incisive essays directed to general readers as well as students of literature Dickstein redefines the literary landscape a landscape in which reading has for decades been devalued by society and distorted by theory Having begun with a reconsideration of realism the book concludes with several essays probing the strengths and limitations of a historical approach to literature and criticism

Aikin,2014-07-17 Work on the norms of belief in epistemology regularly starts with two touchstone essays W K Clifford s The Ethics of Belief and William James s The Will to Believe Discussing the central themes from these seminal essays Evidentialism and the Will to Believe explores the history of the ideas governing evidentialism As well as Clifford s argument from the examples of the shipowner the consequences of credulity and his defence against skepticism this book tackles James s conditions for a genuine option and the structure of the will to believe case as a counter example to Clifford s evidentialism Exploring the question of whether James s case successfully counters Clifford s evidentialist rule for belief this study captures the debate between those who hold that one should proportion belief to evidence and those who hold that the evidentialist norm is too restrictive More than a sustained explication of the essays it also surveys recent epistemological arguments to evidentialism But it is by bringing Clifford and James into fruitful conversation for the first time that this study presents a clearer history of the issues and provides an important reconstruction of the notion of evidence in contemporary epistemology *The Teacher Clarity Playbook, Grades K-12* Douglas Fisher,Nancy Frey,John Almarode,Kierstan
