Monolingual Policy, Bilingual Interaction Rizwan-ul Huq, 2020-12-28

The research reported here is an investigation of bilingual instruction in Bangladeshi schools. In particular, the thesis explores how schooling takes place when a second language is used as a medium of instruction to teach subject content. The study is based on a corpus of 44 hours of video recordings from real life classroom interaction at two Bangladeshi schools in two metropolitan cities. The age range of the students is 9 to 13 years. Using multimodal conversation analysis, the thesis analyzes the participants' practice as it emerges through mundane classroom activities and thereby examines participants' language use in the presence of an existing language policy. The findings show how everyday instructional activities are accomplished in classrooms, especially the pedagogical focus on clarifying subject content and vocabulary. It further highlights that the interrelation between classroom interaction and language policy is informed by the participants' use of embodied resources and the surrounding material ecology. The dissertation contributes to the growing literature on social interaction in bilingual classrooms and the wider field of bilingual and multilingual pedagogy.

Den här avhandlingen undersöker tv-språkig undervisning i skolor i Bangladesh med särskilt fokus på hur ett andraspråk engelska används för att undervisa mnesinnehållet. Studien är baserad på videoinspelningar av klassrumsinteraktioner i två skolor i Bangladesh belägna i två största städerna på de deltagande eleverna 9 till 13 år och den totala inspelningstiden är 44 timmar. I avhandlingen analyseras deltagarnas både lårare och elevers pedagogiska interaktion in situ, det vill säga så som de uttrycks i de faktiska klassrumssituationerna. Med hjälp av multimodal konversationsanalys undersöks vilka strategier deltagarna använder för att utföra klassrumsarbete mot bakgrund av skolans språkpolicy om att enbart kommunicera på engelska. Resultatet visar hur den faktiska undervisningen går till i klassrummen och särskilt det pedagogiska fokuset på att förtydliga mnesinnehållet och utöka ordförrådet. Avhandlingen bidrar till forskningen om social interaktion i tvåspråkiga klassrum och till den växande kunskapen om tv- och flerspråkig pedagogik.

Singing with the Mountains William Sherman, 2023-12-05 An illuminating story of a Sufi community that sought the revelation of God In the Afghan highlands of the sixteenth century the messianic community known as the Roshaniyya not only desired to find God's word and to abide by it but also attempted to practice God's word and to develop techniques of language intended to render their own tongues as the organs of continuous revelation As their critics would contend however

the Roshaniyya attempted to make language do something that language should not do infuse the semiotic with the divine Their story thus ends in a tower of skulls the proliferation of heresiographies that detailed the sins of the Roshaniyya and new formations of Afghan identity In Singing with the Mountains William E B Sherman finds something extraordinary about the Roshaniyya not least because the first known literary use of vernacular Pashto occurs in an eclectic Roshani imitation of the Qur'an The story of the Roshaniyya exemplifies a religious culture of linguistic experimentation In the example of the Roshaniyya we discover a set of questions and anxieties about the capacities of language that pervaded Sufi orders imperial courts groups of wandering ascetics and scholastic networks throughout Central and South Asia In telling this tale Sherman asks the following questions How can we make language shimmer with divine truth How can letters grant sovereign power and form new ethnic identities and ways of belonging How can rhyme bend our conceptions of time so that the prophetic past comes to inhabit the now of our collective moment By analyzing the ways in which the Roshaniyya answered these types of questions and the ways in which their answers were eventually rejected as heresies this book offers new insight into the imaginations of religious actors in the late medieval and early modern Persianate worlds

New Idea of India Harsh Madhusudan, Rajeev Mantri, 2025-07-30 For the better part of seven decades after independence the Nehruvian idea of India held sway in India's polity even if it was not always in consonance with the views of Jawaharlal Nehru himself Three key features constituted the crux of the Nehruvian way socialism which in practice devolved to corruption and stagnation secularism which boxed citizens into group membership and diluted individual identity and non-alignment which effectively placed India in the Communist camp In the early Nineties India began a gradual withdrawal from this path But it was only in 2019 with Narendra Modi's second successive win in the general elections that this philosophy is finally being replaced by a worldview that acknowledges India as an ancient civilization even if a young republic and that sees citizens as equal for developmental and other purposes A New Idea of India constructs and expounds on a new framework beyond the rough and tumble of partisan politics Lucid in its laying out of ideas and policies while taking a novel position this book is illuminated by years of research and the authors first hand experiences as citizens entrepreneurs and investors of the vagaries and challenges of India This revised edition builds on some of the arguments of the earlier edition and brings things up to date
