provides a wide ranging account of how modern cities have come to look as they do differing radically from their predecessors in their scale style details and meanings It uses many illustrations and examples to explore the origins and development of specific landscape features More generally it traces the interconnected changes which have occurred in architecture and aesthetic fashions in planning in economic and social conditions and which together have created the landscape that now prevails in most of the cities of the world This book will be of interest to students of architecture urban studies and geography **Romantic Ecology (Routledge Revivals)** Jonathan Bate,2013-10-31 First published in 1991

Romantic Ecology reassesses the poetry of William Wordsworth in the context of the abiding pastoral tradition in English Literature Jonathan Bate explores the politics of poetry and argues that contrary to critics who suggest that the Wordsworth was a reactionary who failed to represent the harsh economic reality of his native Lake District the poet s politics were fundamentally green As our first truly ecological poet Wordsworth articulated a powerful and enduring vision of human integration with nature which exercised a formative influence on later conservation movements and is of immediate relevance to great environmental issues today Challenging the orthodoxies of new historicist criticism Jonathan Bate sets a new agenda for the study of Romanticism in the 1990s **The Market and its Critics (Routledge Revivals)** Noel

Thompson,2014-10-03 The Market and Its Critics first published in 1988 considers the reaction of socialist writers to the growth of the market economy in nineteenth century Britain and examines in detail the diverse elements of the critique which they formulated Dr Thompson looks at the theoretic and thematic continuities and discontinuities over the century structuring his study around the idea of a changing socialist response to the market economy Much of the literature in question is comprehensive perceptive and acute However the writers invariably discounted the possibility of the market playing a role in a future socialist or communist commonwealth The solutions they posited to the problem were inapplicable

to the increasingly industrial economy of the time It was this that left their writing vulnerable to attack and which had profound consequences both for the fate of the socialist political economy in nineteenth century Britain and its subsequent evolution in the twentieth century **Writings on Distribution and Welfare (Routledge Revivals)** J. Hobson,2013-10-14

The articles in this volume originally published in a variety of journals between 1890 and 1937 deal with the themes of the distribution of income and welfare Highlighting the contribution which Hobson made to welfare economics and the way in which he distanced himself from his more orthodox contemporaries in interpretation the articles also show the changes in Hobson s views over the decades in which they were written This is a fascinating collection of material that provides an unparalleled depth of insight into the views of one of the most important economic thinkers of the early twentieth century

Landow,2015-06-11 In this study first published in 1979 Landow contends that Hunt s version of Pre Raphaelitism concerned itself primarily with an elaborate system of painterly symbolism rather than with a photographic realism as has been usually supposed Like Ruskin Hunt believed that a symbolism based on scriptural typology the method of finding anticipations of Christ in Hebrew history could produce an ideal art that would

solve the problems of Victorian painting According to Hunt this elaborate symbolism could simultaneously avoid the dangers of materialism inherent in a realistic style the dead conventionalism of academic art and the sentimentality of much contemporary painting George Landow examines Hunt's work in the context of this argument and drawing on much unknown or previously inaccessible material shows how he used texts frames and symbols to create a complex art of mediation that became increasingly visionary as the artist grew older This book is ideal for students of art history

Pueblo Style and Regional Architecture (Routledge Revivals) Nicholas C. Markovich, Wolfgang F. E. Preiser, Fred G. Sturm, 2015-06-03 Few architectural styles evoke so strong a sense of place as Pueblo architecture This book brings together experts from architecture and art archaeology and anthropology philosophy and history considering Pueblo style not simply architecturally but within its cultural religious economic and climate contexts as well The product of successive layers of Pueblo Indian Spanish and Anglo influences contemporary Pueblo style is above all seen as a harmonious response to the magnificent landscape from which it emerged Pueblo Style and Regional Architecture first published in 1990 is a unique and thorough study of this enduring regional style a sourcebook that will inform and inspire architects and designers as well as fascinate those interested in the anthropology culture art and history of the American Southwest

Victorian Types, Victorian Shadows (Routledge Revivals) George P. Landow, 2014-07-11 The importance of typology in the study of early modern literature has long been accepted yet students of Victorian culture have paid little attention to it First published in 1980 this study demonstrates how biblical typology an apparently arcane interpretative mode had profound effects on the secular culture of the Victorian age its art literature and thought George Landow considers the way in which the average English believer learned to read their Bible in terms of the types and shadows of Christ the various ways in which Victorian poetry and hymns employed certain imagery and the use of typological symbolism in narrative poetry prose fiction dramatic monologue and non fiction In a concluding chapter he investigates the particularly complex and often ironic combinations of typological image and typological structure

Science and Philosophy (Routledge Revivals) Bernard Bosanquet, 2013-04-03 First published in 1927 Science and Philosophy And Other Essays is a collection of individual papers written by Bernard Bosanquet during his highly industrious philosophical life The collection was put together by Bosanquet's wife after the death of the writer and remains mostly unaltered with just a few papers added and the order of entries improved The papers here displayed consist of various contributions Bosanquet made to Mind the Proceedings of the Aristotelian Society the International Journal of Ethics and other periodicals as well as work from volumes of lectures and essays under his own or other editorship Throughout the collection Bosanquet considers the relationship between science and philosophy The two subject areas became increasingly intertwined during Bosanquet's lifetime as scientific writers grew more interested in the philosophical investigation of the concepts which underlined their work and philosophical thinkers recognised the importance of the relationship between mathematics and logic as well as that between physics and

metaphysics The first essay in this volume discusses this idea explicitly and all subsequent articles may be regarded as essays in support of the main discussion with which the volume opens
