Russian Literary Culture in the Camera Age Stephen Hutchings, 2004-06-02 This book explores how one of the world's most literary oriented societies entered the modern visual era beginning with the advent of photography in the nineteenth century focusing then on literature's role in helping to shape cinema as a tool of official totalitarian culture during the Soviet period and concluding with an examination of post Soviet Russia's encounter with global television As well as pioneering the exploration of this important new area in Slavic Studies the book illuminates aspects of cultural theory by investigating how the Russian case affects general notions of literature's fate within post literate culture the ramifications of communism's fall for media globalization and the applicability of text image models to problems of intercultural change

Risk General Stanley McChrystal, Anna Butrico, 2021-10-05 From the bestselling author of *Team of Teams* and *My Share of the Task* an entirely new way to understand risk and master the unknown Retired four star general Stan McChrystal has lived a life associated with the deadly risks of combat From his first day at West Point to his years in Afghanistan to his efforts helping business leaders navigate a global pandemic McChrystal has seen how individuals and organizations fail to mitigate risk Why Because they focus on the probability of something happening instead of the interface by which it can be managed In *Risk* General McChrystal offers a battle tested system for detecting and responding to risk Instead of defining risk as a force to predict McChrystal and coauthor Anna Butrico show that there are in fact ten dimensions of control we can adjust at any given time Drawing on examples ranging from military history to the business world and offering practical exercises to improve preparedness McChrystal illustrates how these ten factors are always in effect and how by considering them individuals and organizations can exert mastery over every conceivable sort of risk that they might face We may not be able to see the future but with McChrystal's hard won guidance we can improve our resistance and build a strong defense against what we know and what we don't

and Soviet cinema occupies a unique place in the history of world cinema. Legendary filmmakers such as Sergei Eisenstein, Vsevolod Pudovkin, Dziga Vertov, Andrei Tarkovsky, and Sergei Paradjanov have created oeuvres that are being screened and studied all over the world. The Soviet film industry was different from others because its main criterion of success was not profit but the ideological and aesthetic effect on the viewer. Another important feature is Soviet cinema's multinational Eurasian character while Russian cinema was the largest. Other national cinemas such as Georgian, Kazakh, and Ukrainian played a decisive role for Soviet cinema as a whole. The Historical Dictionary of Russian and Soviet Cinema provides a rich tapestry of factual information together with detailed critical assessments of individual artistic accomplishments. This second edition of Historical Dictionary of Russian and Soviet Cinema contains a chronology, an introduction, and a bibliography. The dictionary section has over 600 cross-referenced entries on directors, performers, cinematographers, composers, designers, producers, and studios. This book is an excellent access point for students, researchers, and anyone wanting to know more about Russian and Soviet Cinema.

The New Russian Book. Birgitte Beck Pristed, 2017-08-01. This book takes up the obtrusive problem of visual representation of fiction in contemporary Russian book design. By analyzing a broad variety of book covers, the study offers an absolutely unique material that illustrates a radically changing notion of literature in the transformation of Soviet print culture to a post-Soviet book market. It delivers a profound and critical exploration of Russian visual imagery of classic popular and contemporary prose. Among all the carelessly bungled covers of mass published post-Soviet series, the study identifies gems from experimental designers. By taking a comparative approach to the clash of two formerly separate book cultures, the Western and the Soviet, that results both in a mixture of highbrow and lowbrow forms and in ideological re-interpretations of the literary works, this book contributes to opening an East-West dialogue between the fields of Russian studies, contemporary book and media history, art design, and visual studies.
