Expanding Horizons Karen J. Ripoll-Núñez, Anna Laura Comunian, Carrie M. Brown, 2012 *Expanding Horizons* Current Research on Interpersonal Acceptance offers readers an outstanding collection of papers that reflects current trends in research on interpersonal acceptance. Papers in this volume cover a variety of questions and topics with regard to issues of acceptance/rejection by significant figures in parent-child, sibling, peer, and adult intimate relationships. Also, several papers deal with the implications of interpersonal acceptance for the development and educational achievement of children, college students, as well as children with special needs. Lastly, an entire section of the book is devoted to methodological issues in the evaluation of interpersonal acceptance across cultures. The authors draw on the perspectives of different disciplines such as educational psychology, anthropology, sociology, developmental psychology, and family studies. Research findings discussed in this collection of papers have important implications for professionals working in different contexts to strengthen family relationships, teacher and peer relationships in schools, and couple relationships. As such, the book constitutes a useful reference source for graduate students, academic researchers, clinicians, teachers, special educators, school counselors, and service agencies. Scholars who contributed to this book come from different parts of the world, including the Americas, Asia, Australia, Europe, and the Middle East. *Technology-Enhanced Language Teaching and Learning* Karim Sadeghi, Michael Thomas, Farah Ghaderi, 2023-02-23 The Covid-19 pandemic has directly impacted the way teachers and learners worldwide teach and learn languages, forcing numerous educational activities in technologically deprived contexts to stop altogether and those in technologically rich environments to go online on an emergency basis. This volume provides a collection of theoretical and practical insights into the challenges and affordances faced globally during the pandemic and lessons learnt about the application of digital technologies for language teaching and learning. The chapters explore the vital role of technology in its various forms, including the internet, social media, CALL (Computer Assisted Language Learning), MALL (Mobile Assisted Language Learning), TALL (Technology Assisted Language Learning), and TELL (Technology Enhanced Language Learning). Topics explored include the new avenues digital technology has opened up for language teachers and learners, options and challenges in applying technology in various contexts, and how the second language education industry could have been adversely impacted at the time of the pandemic without technological affordances. The contributions showcase studies from various geographical contexts, revealing how the global crisis was received and tackled differently in Australia, Hong Kong, Iran, Italy, Japan, New Zealand, the UAE, the UK, and the USA. **Manual of Diagnostic Tests for Aquatic Animals** International Office of Epizootics, 2006 **Handbook of Structural Equation Modeling** Rick H. Hoyle, 2014-01-01 The first comprehensive structural equation modeling (SEM) handbook, this accessible volume presents both the mechanics of SEM and specific SEM strategies and applications. The editor, contributors, and editorial advisory board are leading methodologists who have organized the book to move from simpler material to more statistically complex modeling.

approaches Sections cover the foundations of SEM statistical underpinnings from assumptions to model modifications steps in implementation from data preparation through writing the SEM report and basic and advanced applications including new and emerging topics in SEM Each chapter provides conceptually oriented descriptions fully explicated analyses and engaging examples that reveal modeling possibilities for use with readers data Many of the chapters also include access to data and syntax files at the companion website allowing readers to try their hands at reproducing the authors results *Higher Education: Handbook of Theory and Research* J.C. Smart,2006-03-30 Published annually since 1985 the Handbook series provides an authoritative compendium of thorough and integrative literature reviews on a diverse array of topics of interest to the higher education scholarly and policy communities The Sustainable World C. A. Brebbia,2011 This book contains a collection of papers presented at a series of meetings organised by the Wessex Institute of Technology WIT dealing with sustainability the environment and ecological issues The complexity of the modern world presents new challenges to scientists and engineers that requires finding interdisciplinary solutions Any problem solving carried out in the isolation of a particular field of expertise may give rise to a series of damaging effects which can create new and unintentional environmental and ecological problems Specialisation while required in our culture needs to be kept under control by the understanding of the whole which leads to the need of relying on interdisciplinary teams Nowadays this can be easily achieved thanks to the massive advances in information technology which ensure continuous and immediate contact between all partners This collaboration needs to be effective and to produce results that will lead to a better world For this to happen it is necessary that different groups of scientists and engineers acquire the necessary skills to be able to talk to each other Furthermore they need to understand the social and economic aspects of a given problem in addition to the scientific and engineering issues involved The Wessex Institute of Technology WIT has a long and very successful record in organising interdisciplinary conferences The papers in this book are a reflection of the proceedings of some of those meetings
