**Latina/o Sexualities** Marysol Asencio, 2010 Latinas/os are currently the largest minority population in the United States They are also one of the fastest growing Yet we have very

limited research and understanding of their sexualities. Instead, stereotypical images flourish even though scholars have challenged the validity and narrowness of these images and the lack of attention to the larger social context. Gathering the latest empirical work in the social and behavioral sciences, this reader offers us a critical lens through which to understand these images and the social context framing Latina/os and their sexualities. Situated at the juncture of Latina/o studies and sexualities studies, *Latina/o Sexualities* provides a single resource that addresses the current state of knowledge from a multidisciplinary perspective. Contributors synthesize and critique the literature and carve a separate space where issues of Latina/o sexualities can be explored given the limitations of prevalent research models. This work compels the current wave in sexuality studies to be more inclusive of ethnic minorities and sets an agenda that policy makers and researchers will find invaluable.

***Filipino Studies*** Martin F. Manalansan, Augusto Espiritu, 2016-05-10 After years of occupying a vexed position in the American academy, Philippine studies has come into its own, emerging as a trenchant and dynamic space of inquiry. *Filipino Studies* is a field-defining collection of vibrant voices, critical perspectives, and provocative ideas about the cultural, political, and economic state of the Philippines and its diaspora. Traversing issues of colonialism, neoliberalism, globalization, and nationalism, this volume examines not only the past and present position of the Philippines and its people but also advances new frameworks for re-conceptualizing this growing field. Written by a prestigious lineup of international scholars grappling with the legacies of colonialism and imperial power, the essays examine both the genealogy of the Philippines' hyphenated identity as well as the future trajectory of the field. Hailing from multiple disciplines in the humanities and social sciences, the contributors revisit and contest traditional renditions of Philippine colonial histories from racial formations and the Japanese occupation to the Cold War and independence from the United States. Whether addressing the contested memories of World War II, the voyage of Filipino men and women into the U.S. metropole or migrant labor, and the notion of home, the assembled essays tease out the links between the past and present with a hopeful longing for various futures. *Filipino Studies* makes bold declarations about the productive frameworks that open up new archives and innovative landscapes of knowledge for Filipino and Filipino American Studies.

identities and challenging others' conceptions of who they are. During a time of conservative resurgence they do so despite great personal costs. Transgender men comprise a large growing proportion of the trans population yet they remain largely invisible. In this powerful, timely, and eye-opening account, Stein draws from dozens of interviews with transgender people and their friends and families as well as with activists and medical and psychological experts. **Trans Lives in a Globalizing World** J. Michael Ryan, 2020-09-30. This volume seeks to explore contemporary trans lives in a world that is both global and increasingly globalizing, examining the nuances of the rights, identities, and politics that make up the varied spectrum of what has come to be included under the largely Western-imposed label of trans. Trans identities and rights have become increasingly prominent in the social imagination in recent years, and in a growing number of locales have also become hot-button political issues. As trans individuals are demanding and gaining their rights, these debates are bringing issues of trans lives to the forefront of politics and into social discussions in nearly every country in the world today. In a series of essays covering the key themes of Identities, Rights, and Politics, this interdisciplinary collection presents an international range of topics, spanning human rights and asylum seekers to the Hijras of South Asia and gender-affirming surgeries, all placing trans lives in a globalized context. This is an important contribution from a diverse group of established and emerging scholars seeking to position trans and transgender research in a global framework. It will be of key interest to researchers in Trans Studies, Gender Studies, Sexuality Studies, Cultural and Media Studies, Sociology, Politics, and Anthropology, and for introductory courses in gender and LGBT issues.
