expertconsult.com **Manual of Pharmacologic Calculations** Ronald J. Tallarida, Rodney B. Murray, 2012-12-06 This book contains a collection of quantitative procedures in common use in pharmacology and related disciplines. It is intended for students and researchers in all fields who work with drugs. Many physicians, especially those concerned with clinical pharmacology, will also find much that is useful. The procedures included may be considered core since they are generally applicable to all classes of drugs. Some of the procedures deal with statistics and hence have even wider application. In this new edition, we have increased the number of procedures from 33 in the first edition to 48. Other procedures have been revised and expanded. Yet the basic philosophy of this new edition remains unchanged from the first. That is, the pharmacologic basis of each procedure is presented along with the necessary formulas and one or more worked examples. An associated computer program is included for each procedure, and its use is illustrated with the same worked example used in the text. The discussions of theory and the sample computations are brief and self-contained so that all computations can be made with the aid of a pocket calculator, and the statistical tables contained in Appendix A. Yet it is realized that the proliferation of lower-priced microcomputers is likely to mean that more and more readers will utilize a computer for most calculations. Accordingly, we have modified the format of the book to facilitate computer usage.

Insurance Handbook for the Medical Office Marilyn Fordney, 2015-11-26 Stay up on the latest in insurance billing and coding with Marilyn Fordney's *Insurance Handbook for the Medical Office*, 14th Edition. Trusted for more than 30 years, this market-leading handbook equips you to succeed as a medical insurance specialist in any of today's outpatient settings. Coverage emphasizes the role of the medical insurance specialist in areas such as diagnostic coding, procedural coding, Medicare, HIPAA, and bill collection strategies. As with previous editions, all the plans that are most commonly encountered in clinics and physicians' offices are incorporated into the text, as well as icons for different types of payers, lists of key abbreviations, and numerous practice exercises that assist you in accurately filling out claim forms. This new edition also features expanded coverage of ICD-10, electronic medical records, electronic claims submission, and the HIPAA 5010, keeping you one step ahead of the latest practices and protocols of the profession. Key terms are defined and emphasized throughout the text to reinforce understanding of new concepts and terminology. Separate chapter on HIPAA Compliance in Insurance Billing, as well as Compliance Alerts throughout the text, highlights important HIPAA compliance issues to ensure readers are compliant with the latest regulations. Emphasis on the business of running a medical office and the importance of the medical insurance specialist details the importance of the medical insurance specialist in the business of the medical office. Increased focus on electronic filing, claims submission, prepares readers for the industry-wide transition to electronic claims submission. Separate chapter on documentation in the medical office covers the principles of medical documentation and the rationales for it. Service to Patient features in most chapters offer examples of good customer service. User resources on the Evolve companion website feature performance checklists, self-assessment quizzes, the Student Software Challenge with cases on
