Fortin,Mark Meuwese,2013-10-17 This volume uses a biography as history approach to illuminate the interconnectedness of the peoples of the Americas West Africa and Europe Contributors highlight individuals and people s experiences made possible by their participation in the creation of an Atlantic world where conflict cooperation necessity and invention led to new societies and cultures Composed of chapters that span a broad chronological topical and thematic range Atlantic Biographies highlights the uniqueness of the Atlantic as a social political economic and cultural theater bound together to illustrate what the Atlantic meant to those subjects of each chapter This is a book about people their resilience and their resolve to carve a niche or have a broader impact in the ever changing world around them      **Social Catholicism for the Twenty-First Century?--Volume 1** William F. Murphy,2024-09-12 This first of two volumes introduces the tradition of social Catholicism not only in its earlier realizations but regarding how a contemporary renewal might address the crisis in which constitutional democracies and the postwar liberal order are under assault by populist and even neo fascist movements that could soon usher in a frighteningly dark future unless a broad movement in defense of constitutional democracy quickly arises In this context some of the most influential voices among American Catholics are focused on criticizing liberal democracy on advocating a postliberal order and the establishment of a Catholic integralist state or on insisting that abortion should be the primary sociopolitical concern for Catholics treating these threats to democracy as largely irrelevant This volume shows the rich tradition of social Catholicism and how the Social Doctrine of the Church came to appreciate the key tenets of constitutional democracy As Pope Benedict XVI wrote this social doctrine leads us to take a stand for the common good to take the institutional or political path of charity to be solicitous for the institutions that give structure to the life of society juridically civilly politically and culturally It engages some of the most influential contemporary Catholic thinkers and argues that they too should

recognize the grave threats facing the human family and join in working to defend and renew our constitutional democracy
