

## Understanding AI in Business Contexts

### Final Examination Study Guide

The primary purpose of this study guide is to help your learning in this course; preparing for the exam is only its secondary purpose. Thus, although this guide is structured based on what you should expect for the final exam, it is designed to help you review and reinforce all that you have learnt in this course so that your learning can be useful to you in your professional life, and it can remain with you long after the exam.

#### Examination structure

- The duration of the exam is 90 minutes.
- The exam counts for 70% of your course grade.
- The exam will be held using TestWe in a physical classroom (not online).
- **There will be five parts, one for each of the five sessions of the course.** Some questions will be short answer (200 to 300 words per part); some questions will be multiple-choice.
- **The examination is strictly closed book. You may not use any notes or books.**
- No electronic dictionaries, calculators or any other device is permitted.

#### General notes for study and preparation

- The questions will be drawn entirely from the face-to-face class sessions and the slides presented during those sessions.
  - Disclosure: the teachers use AI tools to help them design the exam, but the teachers take full responsibility for the final exam questions.
  - Rest assured: the examination will be marked by human markers, not by AI.
- There will be no questions drawn from any other source (e.g., there will be no questions directly taken from the Perusall readings, DataCamp assignments, recommended textbooks, or any of the websites or videos linked in the slides).
- You will not be tested on any of the videos that were shown in class. However, watching them again could help you better understand the concepts explained in the slides.
- You do not need to memorize any abbreviations; all necessary abbreviations will be spelt out for you in the exam.
- You should not try to memorize concepts or terms word-for-word. Rather, the best strategy is to try to **understand** all the concepts: what do they mean and why are they important?
- The best way to study is to read everything in the entire slide presentation (unless explicitly excluded in this study guide). For any topics that you have difficulty understanding from the slides, refer to the class video recordings linked from K2 to remember the explanation of the topic.
