own one in the UK I am also a proud owner of an LXD75 SC 8 Armed with these two very different telescopes I have spent

many hours searching the skies for interesting objects using Meade s Autostar Goto facility My motivation to write a book

about the LXD Goto telescope series first came from comments about an LXD55 AR 6 Refractor review that was published on

the LXD55 com website From then on I have had regular emails from people asking technical questions about the telescope

and which model is best suited for them Whilst attending Star parties in the UK I found that many LXD owners would

struggle to use them even at a basic level especially if they have never owned or used an equatorially mounted Goto

telescope before Since the first LXD55 models came out in early 2002 owners have struggled to find useful information to

help them use the telescopes to the best advantage There have been mixed reactions about its quality and performance

Hence this book is directed towards those who are new to Goto and the LXD telescope **Popular Electronics** ,1976
