**Altruism** Matthieu Ricard, 2015-06-02 The author of the international bestseller Happiness makes a passionate case for altruism and why we need it now more than ever In Happiness Matthieu Ricard demonstrated that true happiness is not tied to fleeting moments or sensations but is an enduring state of soul rooted in mindfulness and compassion for others Now he turns his lens from the personal to the global with a rousing argument that altruism genuine concern for the well being of others could be the saving grace of the 21st century It is he believes the vital thread that can answer the main challenges of our time the economy in the short term life satisfaction in the mid term and environment in the long term Ricard s message has been taken up by major economists and thinkers including Dennis Snower Amartya Sen Joseph Stiglitz and George Soros Matthieu Ricard makes a robust and passionate case for cultivating altruistic love and compassion as the best means for simultaneously benefitting ourselves and our society It s a fresh outlook on an ardent struggle and one that just might make the world a better place A Plea for the Animals Matthieu Ricard, 2016-10-04 A powerful and wide ranging indictment of the treatment of animals by humans and an eloquent plea for animal rights Every cow just wants to be happy Every chicken just wants to be free Every bear dog or mouse experiences sorrow and feels pain as intensely as any of us humans do In a compelling appeal to reason and human kindness Matthieu Ricard here takes the arguments from his best sellers Altruism and Happiness to their logical conclusion that compassion toward all beings including our fellow animals is a moral obligation and the direction toward which any enlightened society must aspire He chronicles the appalling sufferings of the animals we eat wear and use for adornment or entertainment and submits every traditional justification for their exploitation to scientific evidence and moral scrutiny What arises is an unambiguous and powerful ethical imperative for treating all of the animals with whom we share this planet with respect and compassion *Towards a New International Monetary Order* Koen Byttebier, 2017-05-25 This book presents a thorough and critical evaluation of the monetary and financial system prevalent in Western economies Further it seeks to explain why this system so often leads to financial crises and why they

have been dealt with unsatisfactorily in the past In order to provide answers to these questions the book investigates the monetary and financial system from a multidisciplinary perspective with a strong focus on the ethical value choices which throughout history have shaped the monetary and financial legal system In the closing chapters the book also advances a detailed proposal for a New Global Monetary Order one based on altruism as an alternative to the neoliberal values dominant today

**Development, Humanitarian Aid, and Social Welfare** Cornelia C. Walther,2020-04-27 This book examines how human behavior is shaped by our aspirations emotions thoughts and sensations and conversely how the experiences that result from our behavior impact ourselves others and the planet Based on an analysis of the constant interplay between these four layers it offers practical solutions to systematically induce sustainable social change dynamics It shows why change in addition to economic and political transformation at the macro level begins with mind shifts at the micro level Hereby it establishes the missing link between investments in personal empowerment and collective welfare A novel theoretical paradigm is the foundation of this book which is anchored in the perspective of an ongoing body mind heart soul connection Based on the premise that an equitable society is to the benefit of everyone it is argued that efforts made for others have benefits at three levels for the individual who acts the one who has been acted for and for society
