The “Toxic Poisons” in our Diet - Knowing More about The Long-term Harmful Effect of Refined Foods, Sugars and Salt Dueep Jyot Singh, John Davidson, 2017-08-21 Table of Contents Introduction Benefits of Proper Amounts of Salt The Substitution and Usage of Rock salt Ancient Thai medicine And Diet Crystallized and Refined Sugars Proper Ancient Thai Good Health Diet Bleached and Refined White Flour Margarine and Hydrogenated Oil Artificial Milk Conclusion Author Bio Publisher Introduction I was just fixing lunch listening to a 1954 old time radio program starring Dick Powell Richard Diamond was sponsored by Camel Cigarettes I was shocked to hear that this radio program was telling about 198 million yes I have got the figures right cigarettes being sent to Army Navy and Air Force hospitals and camps free of cost The idea was to get men and women addicted to cigarettes 138 781 doctors were supposedly asked about the brand of cigarettes they smoked in a cross country nationwide survey and they said Camels No wonder the natural good health of a whole nation began deteriorating through deliberate misinformation given out by multibillion dollar tobacco industries smoke this mild cigarette for 30 days and you are not going to suffer from any throat irritation Superstars smoke Camels including Dick Powell They of course did not tell you that Dick Powell died of tobacco addiction tobacco poisoning and cancer I am surprised they did not start up a campaign for harmless smokies for your babies keep them well occupied with a cigarette in their mouths But I think that would have been a bit too much for even a credulous public to swallow no pun intended People finally came to their senses in the 80s and decided to stop smoking Even though the insidious propaganda and advertisements of this multibillion dollar industry still continues But then man has always been self destructive and nobody can teach him otherwise This book is for all those people who want to know something about the harmful long term effects of refined foods including salt and sugar and how you can live a healthy life without these poisons in your diet

Grandma's Frugal Meals - Easy tips, techniques and old-time dishes for healthy eating Dueep J. Singh, John Davidson, 2015-01-10 Grandma s Frugal Meals Easy tips techniques and old time dishes for healthy eating Table of Contents Introduction Grandma s Tips for Food Substitutions How to Make Perfect Yogurt Meat Choosing the right meat To Buy Storing Meat Baked Meat Patties Meat patty Variations How to Cure Your Own Hams Other Food Found Outdoors Rhubarb Jelly Sassafras Jelly Dandelion Greens Luncheon Corn Making Traditional Cornpone Corn Cakes Vegetables How to Store Vegetables Preparing Vegetables for Cooking Steaming Vegetables Meat Cooking Frozen Vegetables Cooking Canned Vegetables How to Prepare Salads Tossed Salads Cole Slaw Coleslaw Dressing What Is Salad Dressing Potato Salad Potato Salad Dressing Traditional Mayonnaise Conclusion Author Bio Publisher Introduction Knowing what to cook was as important as knowing how to cook for grandma She also learned how to make the best of whatever was in front of her from her grandmother and so on for centuries Millenniums ago her ancestors when gathering in the woods for herbs and vegetables

while the menfolk of the family trapped and hunted for meat game and anything else edible and delicious It was then grandma s many times great grandmother s job to make all these ingredients into something delicious and healthy as well as palatable and nourishing So she used her instinct and her creativity to make delicacies with the ingredients available at hand Although science fiction already has stories about scientists making complete little nutritional packages in the shape of pills that are going to take the shape of food in the coming centuries we are very fortunate that we do not have to face that sort of blandness in our meals today We still have the good fortune of going to the nearest market or the nearest organic garden and collecting fresh greens as well as herbs We have plenty of fresh meat at hand And best of all we have all the ingredients to make good wholesome food We only hope judging by the pleasure most of us get from eating the preparation cooking and serving of this nutritious food is going to be a human activity which is going to be around for a long time But most of us cannot afford to have some of the more exotic ingredients of which we dream Either they are not available to us in our city Or perhaps they are beyond our budget Unfortunately for a large percentage of people all over the world budget constraints are the reason why they have to make do with makeshift meals instead of eating what nature intended for them good wholesome natural ingredients Grandma was a frugal person She lived in a time when the dollars earned by grandpa had to be stretched in such a manner that the whole family could be fed and fed well Times changed and times of prosperity came along and the eating habits of the whole family changed Instead of two or three healthy meals in a day there was food aplenty and the whole family could now afford to eat whatever they wanted whenever they wanted and in large quantities This naturally gave rise to problems including obesity Also by not regulating the meal intake as well as the quality of the meals the quality of the general health of grandma s children deteriorated as time went by However the circle of financial constraints has gone and come around again and the time for tightening belts and looking at our budgets has become the top priority A majority of us all over the world again are looking for ways and means in which we can get the proper nutrition in the form of proteins vitamins minerals and energy which our bodies required to keep functioning in a healthy manner

The Magic of Green Tea - Green Tea for Health Dueep Jyot Singh, John Davidson, 2015-12-21 Table of Contents The Magic of Green Tea Table of Contents Introduction History of Tea How to recognize Green Tea How to Prepare Green Tea Health Benefits of Green Tea Best Detoxifying Agent Cardiovascular Diseases Stress Buster Weight Loss through Green Tea Cancer Fighting Properties Antiaging Properties Other Health Benefits Green Tea as a Beauty Aid Skin Rejuvenator Getting Rid of Sunburn Green Tea for Your Hair Traditional Green Tea Home Cure Remedies Basil leaf green tea decoction Conclusion Author Bio Publisher Introduction Since ancient times man has been looking for healthy drinks which could promote good health longevity and vitality Green tea comes in this category A majority of us cannot do without the cup that cheers early in the morning Sometimes we may even find ourselves addicted to our cup of hearty java first thing in the morning before we can wake up completely But since ancient times green tea has been such a major part of the lives of people who are very careful

about their health that it is no wonder that it is one of the most popular of natural healthy drinks going in the world today. The ancient Chinese preferred going without food rather than forfeit their cup of refreshing Cha. That is because tea was such a major part of Chinese culture in ancient times that tea drinking ceremonies which were then adapted by Japan were a major part of the social fabric. Even today there are exotic teas which are going for thousands of dollars on the auction table because they are considered to be such rare distinguished and exotic beverages. Of the three major beverages of the world, tea is definitely the most popular. Cha is a word which is recognized all over the world especially when one demands something refreshing to drink after a hard day's work at the office or sitting doing that hard day's work in the office.

History of Tea Historically tea has been assimilated in the social fabric for millenniums. Serendipity has a great hand in the knowledge of tea like that of coffee. Coffee was supposedly found by a shepherd who had seen his goats eating some berries off a bush and then acting in a very enthusiastic and frisky manner. In the same way tea was supposedly discovered by a Chinese Emperor more than 3000 years ago. He was sitting in his garden and a few leaves of a fragrant camellia bush accidentally fell into a cauldron of boiling water in the vicinity. The resulting fragrance tempted the Emperor to sip this refreshing brew. And soon everybody in China was steeping the leaves of the Camellia in hot water and drinking the resulting infusion down. It was only later that the proper preparation of tea in the form of drying the leaves, fermentation, oxidization and other tea preparation methods before it was packaged and sold to the consumers became known globally down the ages. The Camellia sinensis plant is normally used for the preparation of green tea. The tea available in the market is normally found in 3 forms: black tea, green tea and oolong tea. All these teas are made through different phases of drying and intensity of the fermentation process. About 3 billion kgs of tea are consumed all over the world annually, of which the major tea drinkers are the Chinese, Japanese, Indians, which come up to 43% of the world population of tea drinkers. In ancient Eastern medicine tea has been used as a relaxant and healing drink. According to the Chinese, drinking lots of tea meant that you would not suffer from stomach problems, headaches, nervous tension and any other disease of which you could think. For the last 4000 years tea has been an important ingredient used to cure people in alternative medicines in the East.
