Resources in Education ,1997 **Research in Education** ,1974 **A Future for Regional Australia** I. W. Gray,Geoffrey Lawrence,2001-07-31 This book interprets the predicament faced by Australia s regional people from their own perspective and proposes a means by which they can act together to find a secure future under globalisation It argues that neoliberalism in combination with its real world effects in economic policy are driving regional Australia further into social environmental and economic decay The book will be of great interest to all concerned about the future of regional Australia and will make a lively and relevant text for students studying the social sciences in the countryside or in the major cities *Bibliography of Agriculture* ,1963 Essays on Agricultural Economy G. B. Ayoola,2018-12-06 In particular this book of essays is aimed at quenching the thirst of undergraduate and postgraduate students of agricultural economics in the institutions of higher learning at home and abroad for a quick reference book on Nigerian development which they require for proper understanding of taught courses In general it is also aimed at dependent and independent professionals in the public and private sectors of the economy and development community at large with a view to providing them with the institutional memory they require to demonstrate their expertise on the job much better To this end the book offers the benefit of many years of experience in teaching research and community services through a menu of topics for profitable reading about the inner mechanisms of the policy process for agricultural development of the country in real time Herein is strenuously articulated the systematic outputs of disciplined hard work spanning three decades from 1988 to 2018 including the last ten years of active engagements in policy advocacy outside the university system The menu of nonexperimental writings provides information about the seemingly dry area of agricultural historiography of the country embedded in a series of analytical thoughts and expositions on performance of successive programs and projects for developing the agricultural economy **International Research Centers Directory** Anthony L.
