The Innovation Systems Cycle H. James Harrington, Frank Voehl, 2019-09-26 Currently the prime focus for US business plans should not be on the manufacturing process design and delivery processes but on greatly improving innovation leadership design engineering capability and sales and marketing innovation These three areas have been sadly lacking significant performance improvement during the past 20 years The magic word for US business is simplification Most of the books written to date focus on the solution development aspect of the Innovation System Cycle which is less than 15% of the total innovative system Focusing on solution development is only the start the rest of the innovation system cycle is what turns an idea into a profitable business The techniques in this book are directed at key tasks across the innovative process such as maximizing quality productivity maintainability usability and reliability while focusing on reducing the product cycle time and costs within the innovative process This book uses more than 50 different approaches concepts which leads the reader in a very simple method for understanding establishing and effectively using an innovative system to provide a significant marketing advantage Previous books have focused on what to do however this book focuses on how to do it It transforms a complicated complex system into easy to use and understand methodology
