Magazines and the Making of America Heather A. Haveman, 2020-08-04 From the colonial era to the onset of the Civil War Magazines and the Making of America looks at how magazines and the individuals organizations and circumstances they connected ushered America into the modern age How did a magazine industry emerge in the United States where there were once only amateur authors clumsy technologies for production and distribution and sparse reader demand What legitimated magazines as they competed with other media such as newspapers books and letters And what role did magazines play in the integration or division of American society From their first appearance in 1741 magazines brought together like minded people wherever they were located and whatever interests they shared As America became socially differentiated magazines engaged and empowered diverse communities of faith purpose and practice Religious groups could distinguish themselves from others and demarcate their identities Social

reform movements could energize activists across the country to push for change People in specialized occupations could meet and learn from one another to improve their practices Magazines built translocal communities collections of people with common interests who were geographically dispersed and could not easily meet face to face By supporting communities that crossed various axes of social structure magazines also fostered pluralistic integration Looking at the important role that magazines had in mediating and sustaining critical debates and diverse groups of people Magazines and the Making of America considers how these print publications helped construct a distinctly American society

At Risk of Deprivation Jonas Bergmann,2023-10-19 This open access book examines how and why various forms of climate im mobilities can impact people s objective and subjective well being Worsening climate impacts are forcing subsistence farmers worldwide to decide between staying or leaving their homes This mixed methods study analyzes cases of climate related migration displacement relocation and immobility in Peru s coastal highland and rainforest regions The results reveal that numerous farmers experienced profound and often negative well being impacts regardless of whether they stayed or migrated The higher the structural constraints such as weak governance and the more damaging the climate impacts were the higher the risk of well being declines Additionally the affected individuals often had limited agency and ability to mitigate losses These findings challenge the notion of migration as adaptation and emphasize the importance of safeguarding the human rights and security of those affected while addressing loss and damage Without significant investments in such efforts climate impacts could sharply diminish the well being of numerous subsistence farmers worldwide irrespective of whether they stay or migrate
