Star Observer Magazine March 2015 Elias Jahshan,2015-02-16 **Toxic Chemicals in America** Kelly A.

Tzoumis,2020-12-02 This one stop resource is ideal for understanding the extent to which toxic chemicals are used in U S industry and agriculture impacting public health and the environment through everything from industrial solvents to children s toys Every year about 4 billion pounds of toxic chemicals are generated and released by U S industries Do these chemicals pose a potential health threat to American families including vulnerable groups like children and the elderly Is their manufacture and use adequately regulated to protect both human and environmental health Is the Chemical Safety for the 21st Century Act signed in June 2016 by President Barack Obama with bipartisan support truly the first major overhaul of toxic chemical regulation in 40 years to put human health first as its supporters asserted Or is it a fatally flawed bill that does the bidding of industry by undermining strong state environmental and public health laws as some detractors claim This two volume set addresses all of those questions Moreover it presents and examines arguments marshaled by business interests community leaders scientists activists and lawmakers alike It thus provides users with the information they need to accurately assess the impacts pro and con that industrial chemicals are having in shaping the world in which we work eat drink breathe and play

Lone Star Steeples Pixie Christensen,2016-06-14 In *Lone Star Steeples* Historic Places of Worship in Texas Carl J Christensen Jr and Pixie Christensen present sixty five captivating and historically significant structures in exquisite watercolor illustrations accompanied by brief summaries and convenient handcrafted maps Ranging from stately edifices of brick and stone located in urban centers to more humble wood frame chapels in rural surroundings the houses of faith shown in these pages have one important trait in common They have all served as centers of cultural identity spiritual comfort and public service to the communities in which they arose In their introduction the Christensens write The journey behind *Lone Star Steeples* crisscrossed the state along back roads farm roads and state highways In these journeys and in the stories that were told certain patterns began to emerge the pride of the people in building their churches debt free the perseverance of the people who endured their beloved church being destroyed by natural disaster once twice or even three times the people s recognition of the church as their cultural foundation their moral foundation their social center As the Christensens demonstrate Texas is home to a remarkable diversity of people and their places of worship reflect and celebrate that diversity

Focus On: 100 Most Popular Nonlinear Narrative Films Wikipedia contributors, Technology and the Making of Experimental Film Culture John Powers,2023 The Bolex camera 16mm reversal film stocks commercial film laboratories and low budget optical printers were the small gauge media technologies that provided the infrastructure for experimental filmmaking at the height of its cultural impact *Technology and the Making of Experimental Film Culture* examines how the avant garde embraced these material resources and invested them with meanings and values adjacent to those of semiprofessional film culture By reasserting the physicality of the body in making time lapse and kinesthetic

sequences with the Bolex filmmakers conversed with other art forms and integrated broader spheres of humanistic and scientific inquiry into their artistic process Drawing from the photographic qualities of stocks such as Tri X and Kodachrome they discovered pliant metaphors that allowed them to connect their artistic practice to metaphysics spiritualism and Hollywood excess By framing film labs as mystical or adversarial they cultivated an oppositionality that valorized control over the artistic process And by using the optical printer as a tool for excavating latent meaning out of found footage they posited the reworking of images as fundamental to the exploration of personal and cultural identity Providing a wealth of new detail about the making of canonized avant garde classics by such luminaries as Carolee Schneemann Jack Smith and Stan Brakhage as well as rediscovering works from overlooked artists such as Chick Strand Amy Halpern and Gunvor Nelson Technology and the Making of Experimental Film Culture uses technology as a lens for examining the process of making where ideas come from how they are put into practice and how arguments about those ideas foster cultural and artistic commitments and communities

No Boston Olympics Chris Dempsey, Andrew Zimbalist, 2017-05-02 In 2013 and 2014 some of Massachusetts wealthiest and most powerful individuals hatched an audacious plan to bring the 2024 Summer Olympics to Boston Like their counterparts in cities around the world Boston's Olympic boosters promised political leaders taxpayers and the media that the Games would deliver incalculable benefits and require little financial support from the public Yet these advocates refused to share the details of their bid and only grudgingly admitted when pressed that their plan called for billions of dollars in construction of unneeded venues To win the bid the public would have to guarantee taxpayer funds to cover cost overruns which have plagued all modern Olympic Games The United States Olympic Committee USOC chose Boston 2024's bid over that of other American cities in January 2015 and for a time it seemed inevitable that the International Olympic Committee IOC would award the Games to Boston 2024 No Boston Olympics is the story of how an ad hoc underfunded group of diverse and engaged citizens joined together to challenge and ultimately derail Boston's boosters the USOC and the IOC Chris Dempsey was cochair of No Boston Olympics the group that first voiced skepticism demanded accountability and catalyzed dissent Andrew Zimbalist is a world expert on the economics of sports and the leading researcher on the hidden costs of hosting mega events such as the Olympics and the World Cup Together they tell Boston's story while providing a blueprint for citizens who seek to challenge costly wasteful disruptive and risky Olympic bids in their own cities

Raw Flows. Fluid Mattering in Arts and Research Roman Kirschner,2017-02-06 The word fluid describes a phenomenon as well as a material property Of special interest is how aspects of fluidity influence the active and direct handling of materials and how its special characteristics are expressed in experimental practices and thinking patterns The motivation for focusing on fluidity as a prerequisite for becoming and the nature of processes originated from the art based Liquid Things research project As this subject covers a very wide spectrum the approach was modified to allow the participation of several disciplines the book draws on the philosophy of science hydrodynamics and the cultural sciences and focuses on the role of fluidity in cognitive and experience processes with the aim of establishing a grammar of movable materials New Realism David Forrest,2020-03-18 The tradition of British realism has changed dramatically over the last 20 years where films by directors such as Duane Hopkins Joanna Hogg Andrea Arnold Shane Meadows and Clio Barnard have suggested a markedly poetic turn This new realism rejects the instrumentalism and didacticism of filmmakers like Ken Loach in favour of lyrical and often ambiguous encounters with place where the physical processes of lived experience interacts with the rhythms of everyday life Taking these 5 filmmakers as case studies this book seeks to explore in depth this new tradition of British cinema and in the process it reignites debates over realism that have concerned scholars for decades
