**Proceedings of the 8th International Conference on Computational Science and Technology** Rayner Alfred, Yuto Lim, 2022-03-25 This book gathers the proceedings of the Seventh International Conference on Computational Science and Technology ICCST 2021 held in Labuan Malaysia on 28 29 August 2021 The respective contributions offer practitioners and researchers a range of new computational techniques and solutions identify emerging issues and outline future research directions while also showing them how to apply the latest large scale high performance computational methods

**Coronal Magnetometry** Sarah E.

Gibson,Laurel A. Rachmeler,Stephen M. White,2017-07-11 Magnetism defines the complex and dynamic solar corona It determines the magnetic loop structure that dominates images of the corona and stores the energy necessary to drive coronal eruptive phenomena and flare explosions At great heights the corona transitions into the ever outflowing solar wind whose speed and three dimensional morphology are controlled by the global coronal magnetic field Coronal magnetism is thus at the heart of any understanding of the nature of the corona and essential for predictive capability of how the Sun affects the Earth Coronal magnetometry is a subject that requires a concerted effort to draw together the different strands of research happening around the world Each method provides some information about the field but none of them can be used to determine the full 3D field structure in the full volume of the corona Thus we need to combine them to understand the full picture The purpose of this Frontiers Research Topic on Coronal Magnetometry is to provide a forum for comparing and coordinating these research methods and for discussing future opportunities Plant Flow Measurement and Control Handbook Swapan Basu,2018-08-22 Plant Flow Measurement and Control Handbook is a comprehensive reference source for practicing engineers in the field of instrumentation and controls It covers many practical topics such as installation maintenance and potential issues giving an overview of available techniques along with recommendations for application In addition it covers available flow sensors such as automation and control The author brings his 35 years of experience in working in instrumentation and control within the industry to this title with a focus on fluid flow measurement its importance in plant design and the appropriate control of processes The book provides a good balance between practical issues and theory and is fully supported with industry case studies and a high level of illustrations to assist learning It is unique in its coverage of multiphase flow solid flow process connection to the plant flow computation and control Readers will not only further understand design but they will also further comprehend integration tactics that can be applied to the plant through a step by step design process that goes from installation to operation Provides specification sheets engineering drawings calibration procedures and installation practices for each type of measurement Presents the correct flow meter that is suitable for a particular application Includes a selection table and step by step guide to help users make the best decision Cover examples and applications from engineering practice that will aid in understanding and application *Control Applications in Modern Power Systems* Jitendra Kumar,Manoj Tripathy,Premalata Jena,2022-05-27 The volume contains peer reviewed proceedings of EPREC 2021 with a focus on control applications in the modern power system The book includes original research and case studies that present recent developments in the control system especially load frequency control wide area monitoring control instrumentation optimization intelligent control energy management system SCADA systems etc The book will be a valuable reference guide for beginners researchers and professionals interested in advancements in the control system *Informatics, Networking and Intelligent Computing* Jiaying Zhang,2015-05-06 This proceedings volume contains selected papers presented at the 2014 International Conference on Informatics Networking and Intelligent

Computing held in Shenzhen China Contributions cover the latest developments and advances in the field of Informatics Networking and Intelligent Computing

**Highlands to Deserts** Michael Tyquin, 2018-09-05 Highlands to Deserts is the story of a small Australian Army engineering unit determined to use more than bricks and bridges to make a difference not only to Australian Army units but to indigenous communities both within Australia and overseas The 19th Chief Engineer Works was raised in 1963 as the Army's premier engineering consultant its purpose to plan design and oversee the construction of barracks and training facilities in the New Guinea highlands However the men of the unit demonstrated vision far beyond their limited brief reaching into local communities and building relationships with tribesmen that were to prove strong and enduring From the wilds of New Guinea the unit extended its reach to the remote communities of outback Australia designing infrastructure that reflected local needs The engineers engaged with indigenous townships cementing relationships as they planned essential infrastructure their sole aim to make a difference to local lives The unit's military remit ranged from designing bridges and wharfs to training facilities and even churches The story of the 19th Chief Engineer Works its people and its achievements deserves to be far better known and Highlands to Deserts provides rich portrayals of the characters and the trials and tribulations that signpost their history These are men and women who have invested in communities large and small near and far seeking to improve the daily lives of soldiers and indigenous peoples Having worked quietly in the background for 55 years it is now time to tell the story of the 19th Chief Engineer Works

**Human Rights Approaches to Climate Change** Sumudu Atapattu, 2015-10-16 Despite the clear link between climate change and human rights with the potential for virtually all protected rights to be undermined as a result of climate change its catastrophic impact on human beings was not really understood as a human rights issue until recently This book examines the link between climate change and human rights in a comprehensive manner It looks at human rights approaches to climate change including the jurisprudential bases for human rights and the environment the theoretical framework governing human rights and the environment and the different approaches to this including benchmarks In addition to a discussion of human rights implications of international environmental law principles in the climate change regime the book explores how the human rights framework can be used in relation to mitigation adaption and adjudication Other chapters examine how vulnerable groups women indigenous peoples and climate refugees would be disproportionately affected by climate change The book then goes on to discuss a new category of people created by climate change those who will be rendered stateless as a result of states disappearing and displaced by climate change and whether human rights law can adequately address these emerging issues

**Departments of Labor, Health and Human Services, Education, and Related Agencies Appropriations for 2016**

United States. Congress. House. Committee on Appropriations. Subcommittee on the Departments of Labor, Health and Human Services, Education, and Related Agencies,2015 **Law and Judicial Dialogue on the Return of Irregular Migrants from the European Union** Madalina Moraru,Galina Cornelisse,Philippe De Bruycker,2020-08-06 This volume examines the implementation of the Return Directive from the perspective of judicial dialogue While the role of judges has been widely addressed in European asylum law and EU law more generally their role in EU return policy has hitherto remained under explored This volume addresses the interaction and dialogue between domestic judiciaries and European courts in the implementation of European return policy The book brings together leading authors from various backgrounds including legal scholars judges and practitioners This allows the collection to offer theoretical and practical perspectives on important questions regarding the regulation of irregular migration in Europe such as what constitutes inadequate implementation of the Directive and under which conditions can judicial dialogue solve it How can judges ensure that the right balance is struck between effective return procedures and fundamental rights Why do we see different patterns of judicial dialogue in the Member States when it comes to particular questions of return policy for example regarding the use of detention These questions are more timely than ever given the shifting public discourse on immigration and the growing political backlash against immigration courts This book will be essential reading for all scholars and practitioners in the fields

of immigration law and policy EU law and public law      HC 902 - The Work of the Immigration Directorates: Calais Great Britain. Parliament. House of Commons. Home Affairs Committee, 2015 Calais is the closest entry point to the UK from Europe with frequent ferry services to Dover the Eurotunnel Shuttle service to Folkestone and direct passenger trains to London St Pancras About 10 million passengers and about 89 billion worth of UK trade pass through the port of Calais every year A further 20 million passengers pass through the tunnel on Eurostar or the Shuttle Most of the traffic is freight Most of the passengers are British citizens on leisure trips The growing number and living conditions of migrants in Calais and the enhanced security measures brought in to counter them have affected the residents of Calais the reputation of the port of Calais and the ease with which trade and traffic can pass between Britain and the Continent The number of migrants at Calais has increased over 2014 from an estimated 1 300 in September to about 2 500 by the end of October The majority are from countries that have been affected by war or civil unrest Most are men and from Somalia Sudan Eritrea and Syria in 2013 Syria overtook Afghanistan as the top country of origin of asylum seekers in the world Some of the migrants live in squats and small camps in the town of Calais but most live in makeshift tents made out of plastic sheets and canvas poorly constructed located in empty industrial sites or woodland The camps are not permanent and Calais is not the final destination but a staging post for migrants wishing to enter the UK illegally The UK cannot ignore the issues around Calais While security in France is the responsibility of the French authorities the UK operates juxtaposed border controls in Calais and Coquelles These juxtaposed controls enable all border administration for entry to the UK to take place before passengers and vehicles leave France Efficient management of queues and the ability to deliver on time are important both to avoid disruption to carriers timetables and to avoid the excessive build up of traffic on the surrounding road network As well as ensuring the efficient and timely processing of travellers and freight the border controls are needed to ensure the integrity of the UK border      **Italian Literature since 1900 in English Translation 1929-2016** Robin Healey, 2019-03-07 Providing the most complete record possible of texts by Italian writers active after 1900 this annotated bibliography covers over 4 800 distinct editions of writings by some 1 700 Italian authors Many entries are accompanied by useful notes that provide information on the authors works translators and the reception of the translations This book includes the works of Pirandello Calvino Eco and more recently Andrea Camilleri and Valerio Manfredi Together with Robin Healey's Italian Literature before 1900 in English Translation also published by University of Toronto Press in 2011 this volume makes comprehensive information on translations from Italian accessible for schools libraries and those interested in comparative literature

**The Cameron-Clegg Coalition and Britain's Role in the World** Timothy J. Oliver, 2011-09-15. This is the first in depth study of the foreign and defence policies of the Coalition a government that saw the Conservatives restored to power for the first time since the Iraq War and the Liberal Democrats enter government for the first time. It explores the idea of Britain as a Great Power since 1945 to show how the Coalition's policies fitted into wider historical understandings of Britain's role in the world. Drawing on a range of evidence from the time of the Coalition it shows that this period was one of continued change in British foreign policy. The Coalition conducted the first strategic defence review since 1998 significantly reduced the funding allocations for defence and foreign affairs, raised overseas aid spending to record levels, engaged in overseas military action in two sovereign states and were denied a chance to participate in another as well as a wide array of other policies. This book argues that evaluating these events and the historical background of the Coalition is critical to understanding the current crises gripping British politics.

**Jacobs, White, and Ovey** Bernadette Rainey, Elizabeth Wicks, Clare Ovey, 2017. The seventh edition of Jacobs White and Ovey. The European Convention on Human Rights is a clear and concise companion to this increasingly important and extensive area of the law. The authors examine each of the Convention rights in turn, explore the pivotal cases in each area and examine the principles that underpin the Court's decisions. The focus on the European Convention itself rather than its implementation in any one member state makes this book essential reading for all students looking for a concise yet authoritative overview of the work of the Strasbourg Court. Online Resource Centre. The text is accompanied by an Online Resource Centre that features updates on cases and legislation since publication as well as links to useful websites and further reading on the

European Convention
