Anderson,2013-10-22 Selected Readings in Mineral Economics reviews the economic principles of mineral investment
activities and mining decisions Topics range from mineral reserves and exploration to the economics of mineral projects
taxation issues and marketing and finance This text is comprised of 27 chapters After explaining the distinction between
resources and reserves this book proposes a concept of mineral reserves The chapters that follow explore the conversion of
resources into reserves through the exploration process while focusing on the flow from resources to reserves and metal
production based on the concept of the monitoring curve along with the process of depletion and reserves replacement The
next section illustrates the range of issues associated with rational project evaluation in the minerals sector considering the
discounted cash flow techniques and option pricing as an approach to mine valuation The effects of Canada s tax system on
the mineral supply process are then examined together with international mineral markets and finance This text concludes
with a chapter that analyzes financing methods for large scale mining projects including innovative methods of debt finance
involving risk sharing This book will be of interest to those working in the mining and metallurgical industries Energy

Behavioral Science & Policy: Volume 2, Issue 1 Craig Fox,Sim B. Sitkin,2016-11-22 The success of nearly all public
and private sector policies hinges on the behavior of individuals groups and organizations Today such behaviors are better
understood than ever thanks to a growing body of practical behavioral science research However policymakers often are
unaware of behavioral science findings that may help them craft and execute more effective and efficient policies The pages
of this new journal will become a meeting ground a place where scientists and non scientists can encounter clearly described
behavioral research that can be put into action By design the scope of BSP is broad with topics spanning health care financial
decisionmaking energy and the environment education and culture justice and ethics and work place practices Contributions
will be made by researchers with expertise in psychology sociology law behavioral economics organization science decision
science and marketing The journal is a key offering of the Behavioral Science Policy Association in partnership with the
Brookings Institution The mission of BSPA is to foster dialog between social scientists policymakers and other practitioners in
order to promote the application of rigorous empirical behavioral science in ways that serve the public interest BSPA does
not advance a particular agenda or political perspective The first issue s contents follow Behavioral Science Policy vol 2 no 1

Murnane,2014-01-01 In this landmark volume Greg J Duncan and Richard J Murnane lay out a meticulously researched case showing how in a time of spiraling inequality strategically targeted interventions and supports can help schools significantly improve the life chances of low income children The authors offer a brilliant synthesis of recent research on inequality and its effects on families children and schools They describe the interplay of social and economic factors that has made it increasingly hard for schools to counteract the effects of inequality and that has created a widening wedge between low and high income students Restoring Opportunity provides detailed portraits of proven initiatives that are transforming the lives of low income children from prekindergarten through high school All of these programs are research tested and have demonstrated sustained effectiveness over time and at significant scale Together they offer a powerful vision of what good instruction in effective schools can look like The authors conclude by outlining the elements of a new agenda for education reform Restoring Opportunity is a crowning contribution from these two leading economists in the field of education and a passionate call to action on behalf of the young people on whom our nation s future depends Copublished with the Russell Sage Foundation
