**Patent Settlements in the Pharmaceutical Industry under US Antitrust and EU Competition Law** Amalia Athanasiadou, 2018-08-14 Reverse payment settlements or pay for delay agreements between originators and generic drug manufacturers create heated debates regarding the balance between competition and intellectual property law These settlements touch upon sensitive issues such as timely generic entry and access to affordable pharmaceuticals and also the need to preserve innovation incentives for originators and to strengthen the pipeline of life saving pharmaceuticals This book is one of the first to critically and comparatively analyse how such patent settlements and various other strategies employed by the pharmaceutical industry are scrutinised by both United States US and European courts and enforcement authorities

and to discuss the applicable legal tests and the main criteria used for their assessment The book s ultimate objective is to provide guidance to the pharmaceutical industry regarding the types of patent settlements strategies and conduct which may be problematic from US antitrust and European Union EU competition law perspectives and to assist practitioners in structuring settlements which are both efficient and compliant To this end an exhaustive legal analysis of some of the most controversial issues regarding pharmaceutical patent settlements is provided including the lengthy split among US Circuit Courts on the issue of pay for delay settlements its resolution by the US Supreme Court in *FTC v Actavis* and subsequent jurisprudence the decision of *Lundbeck v Commission* by the European General Court and the *Servier* decision of the European Commission the *Roche Novartis* decision of the European Court of Justice and the most important decisions by National Competition Authorities on pharma patent settlements in the EU an overview of other types of strategies such as product hopping and product reformulations no authorised generic commitments problematic side deals mechanisms affecting generic substitution the rejection of the scope of the patent test in both the US and the EU and the balancing of patent law and antitrust law considerations in the prevailing applicable tests the benefits of settlements and the main criteria for assessing their legitimacy under US antitrust and EU competition law The analysis provides concrete examples of both illegitimate and legitimate settlements and strategies emphasising on conduct that falls within a grey zone and on the circumstances and criteria under which such conduct could be deemed problematic from an antitrust perspective This book will serve as a valuable guide for pharmaceutical companies wishing to minimise the risk of engaging in conduct that could potentially infringe US antitrust and EU competition law It further aims to save courts and enforcement agencies and also practitioners and academics considerable time and resources by providing an exhaustive analysis of the relevant caselaw with the ultimate goal to increase legal certainty on the most controversial aspects of patent settlements in the pharmaceutical industry

**Shared Prosperity in a Fractured World** Dani Rodrik, 2025-11-04 New practical approaches to confronting today s most daunting global issues Fighting climate change saving democracy and eradicating poverty are urgent global challenges yet the world s leaders continue to pursue outdated policies that focus on one while worsening the tradeoffs between each of them *Shared Prosperity in a Fractured World* shows how the nations of the world can achieve all three objectives Dani Rodrik provides a bold new vision of globalization one in which we accelerate the green transition to achieve a sustainable planet shore up the middle class to restore democracy s foundations and hasten economic revitalization in the developing world to put an end to poverty The rising tide of authoritarianism has demonstrated our inability to alleviate economic anxieties Economic nationalism has raised the specter of increased protectionism and deteriorating prospects for economic growth And automation and other new technologies have undercut the advantages of low cost unskilled labor in manufacturing and export oriented industrialization Rodrik reveals how we can restore prosperity through new forms of collaborative public private action to promote renewables and green industries middle class jobs and enhanced

productivity in labor absorbing services even in the absence of global cooperation He explains why this new kind of globalization must also recognize the legitimate desire of governments to pursue their economic social and security interests autonomously Turning conventional economic wisdom on its head Shared Prosperity in a Fractured World builds on practices that work while radically transforming those that don't presenting a grounded clear eyed approach to tackling the problems that affect us all at home and around the world

**EU Competition Law, Data Protection and Online Platforms: Data as Essential Facility** Inge Graef, 2016-10-17 All are agreed that the digital economy contributes to a dynamic evolution of markets and competition Nonetheless concerns are increasingly raised about the market dominance of a few key players Because these companies hold the power to drive rivals out of business regulators have begun to seek scope for competition enforcement in cases where companies claim that withholding data is needed to satisfy customers and cut costs This book is the first focus on how competition law enforcement tools can be applied to refusals of dominant firms to give access data on online platforms such as search engines social networks and e commerce platforms commonly referred to as the gatekeepers of the Internet The question arises whether the denial of a dominant firm to grant competitors access to its data could constitute a refusal to deal and lead to competition law liability under the so called essential facilities doctrine according to which firms need access to shared knowledge in order to be able to compete A possible duty to share data with rivals also brings to the forefront the interaction of competition law with data protection legislation considering that the required information may include personal data of individuals Building on the refusal to deal concept and using a multidisciplinary approach the analysis covers such issues and topics as the following data portability interoperability data as a competitive advantage or entry barrier in digital markets market definition and dominance with respect to data disruptive versus sustaining innovation role of intellectual property regimes economic trade off in essential facilities cases relationship of competition enforcement with data protection law and data related competition concerns in merger cases The author draws on a wealth of relevant material including EU and US decision making practice case law and policy documents as well as economic and empirical literature on the link between competition and innovation The book concludes with a proposed framework for the application of the essential facilities doctrine to potential forms of abuse of dominance relating to data In addition it makes suggestions as to how data protection interests can be integrated into competition policy An invaluable contribution to ongoing academic and policy discussions about how data related competition concerns should be addressed under competition law the analysis clearly demonstrates how existing competition tools for market definition and assessment of dominance can be applied to online platforms It will be of immeasurable value to the many jurists business persons and academics concerned with this very timely subject

The Bank Merger Wave: The Economic Causes and Social Consequences of Financial Consolidation Gary Dymksi, 2016-09-16 This far reaching study shows that operating efficiencies are not what are driving today's unrelenting bank merger mania It suggests that bank mergers and consolidation may have

effects that are contrary to consumer and non financial business interests such as lower rates of interest increasing fees and tighter credit constraints Dymski recommends several new policies to apply to the evaluation of prospective mergers
