Bulletin ,1932      **Contributions to the Biology of the Philippine Archipelago and Adjacent Regions** Henry Van Peters Wilson,Smithsonian Institution,1925 Volume 2 of this collection of papers consists of papers concerning the biological survey samples collected by the United States Bureau of Fisheries steamer Albatross in the Philippine Islands region between 1907 and 1910 There are 5 separate papers mainly concentrated on invertebrates such as Salps pelagic tunicates sponges and shipworms by various authors that are listed as Parts      Silicious and Horny Sponges Collected by the U. S. Fisheries Steamer "Albatross" During the Philippine Expedition, 1907-10 Henry Van Peters Wilson,1925      **List of Works Relating to the History and Condition of the Jews in Various Countries** New York Public Library,1914      **Actes Et Documents** ,1955      ,      Second-Class Citizenship Eric Mutabazi,Nathanaël Wallenhorst,2025-05-02 A number of features of the contemporary period are preventing people from exercising their citizenship the acceleration and permanent change in the conditions shaping habitability of planet Earth the digital and techno scientific revolution the rise of religious and political radicalisation the explosion of social inequalities the hegemony of the economic drive to maximise individual interests etc For many individuals citizenship appears to be prevented at the first hurdle What is more though officially or legally it is not possible to speak of second class citizenship so what can be done when the actors themselves use such terminology There is something essential here which must be taken into account as a basis for thinking about the social its inequalities and its injustices The authors of this book propose the notion of second class citizenship as a way of thinking about the scale of contemporary social and political inequalities In view of this observation the contributors outline a movement based on the conviction that education is the repository of the power to prepare for the future How can we learn to build a shared world together and overcome the obstacles that prevent us from doing so How can we learn new habits of relationships marked by responsibility and hospitality The collective reflection in this book lends credence to the way in which players talk about their experience even experiencing differences in their ability to participate in the mechanisms of power This book presents empirical studies and conceptual tools for thinking about the impact of economic factors on the ways in which citizens participate in the decisions of power This book is particularly suited for educators as well as policy makers and researchers
