One third of these districts are found in Florida, Texas, and California, and more than half of these large districts have minority enrollment of over 50%. In addition, schools in the 100 largest districts tend to be about 38% larger than the average American school. Information on school and student characteristics and school finances is presented in 10 basic tables. Three text tables establish a meaningful context for the information on the 100 school districts. Appendixes list the 500 largest school districts and an alphabetical list of the 500 districts.
