*Language and Social Structure in Urban France* David Hornsby, 2017-07-05 The coming together of linguistics and sociology in the 1960s most notably via the work of William Labov marked a revolution in the study of language and provided a paradigm for the understanding of variation and change Labovian quantitative methods have been employed successfully in North America the UK Scandinavia and New Zealand but have had surprisingly little resonance in France a country which poses many challenges to orthodox sociolinguistic thinking Why for example does a nation with unexceptional scores on income distribution and social mobility show an exceptionally high degree of linguistic levelling that is the elimination of marked regional or local speech forms And why does French appear to abound in hyperstyle variables which show greater variation on the stylistic than on the social dimension in defiance of a well established theory that such variables should not occur This volume brings together leading variationist sociolinguists and sociologists from both sides of the Channel to ask what makes France exceptional In addressing this question variationists have been forced to reassess the accepted interdisciplinary consensus and to ask as sociolinguistics has come of age whether concepts and definitions have been transposed in a way which meaningfully preserves their original sense and crucially takes account of recent developments in sociology Sociologists for their part have focused on the largely neglected area of language variation and its implications for social theory Their findings therefore transcend the case study of a particularly enigmatic country to raise important theoretical questions for both disciplines

**The Politics of the Extreme Right** Paul Hainsworth, 2016-10-06 Fascist authoritarian anti-Semitic and extremist movements made a powerful and devastating contribution to the 20th century While the experiences of the 1930s and 1940s served to delegitimise such forces contemporary Europe and the USA have witnessed the resurgence of extreme right wing politics Rapid socio-economic change the appeal of nationalism the failures of mainstream political parties and intense campaigning around issues such as immigration security and unemployment have all fuelled the phenomenon This book a sequel to *The Extreme Right in Europe and the USA* provides a comprehensive analysis of the nature and prevalence of extreme right movements in Europe both West and East and in the USA at the turn of the millennium The authors reveal the uneven process of extreme right wing revival which has varied from country to country depending on specific political cultures and circumstances with some movements confined to the margins while others have moved towards the political mainstream They examine the ideas policies personalities organizations voters and reasons for the success of extreme right wing movements in a range of countries as well as providing a more general examination of the nature and politics of the extreme right

Joie de Vivre Harriet Welty Rochefort, 2012-10-02 An engaging exploration of the style that permeates all things French perfect for anyone looking to achieve that classic French flair For Harriet Welty Rochefort an American who has lived in France for many years with her very French husband it's clear that the French truly are singular in the way they live act and think from the lightness of their pastries to the refinement of their Hermes scarves They simply exude a certain *je ne sais quoi* that is a veritable art form The French revel in the moment appreciate the time spent in preparing a perfect feast pay attention to the slightest detail whether flowers on the table or a knockout accessory on a simple outfit and work hard when not enjoying their considerable leisure time without an ounce of guilt Their *joie de vivre* can come where you least expect it for the French it's better to have a *chagrin d'amour* than no amour at all and for the Frenchman a day without discord is a day without a kick They have fun yes fun when they fuss and feud squabble and shrug When it comes to *joie de vivre* Harriet is convinced the French are unbeatable With good humor and genuine affection for the prickly paradoxical and pleasure seeking Gauls she takes the reader on her own personal journey through the often byzantine French mindset sharing tips and tricks such as how to diet like a Frenchwoman and project confidence like a true Parisienne In her signature warm witty and entertaining voice Harriet shows how *joie de vivre* permeates the French way of life precisely because it doesn't include a pursuit of

happiness Fortunately she discovered you don't have to pursue happiness in France It pursues you *Can the West Be Converted?* Jean-Georges Gantenbein, 2021-11-04 Rather than reconsidering contemporary culture in light of secularization much of the western church operates with a degree of nostalgia She has yet to fully embrace prospective innovative models for what form her task might take in some of Christianity's historic heartlands Amidst rapidly declining church membership contextualizing the Gospel for the contemporary West is an urgent task for churches and Christians living in this context This book seeks an interdisciplinary international and ecumenical response to this challenge uniting historical sociological theological and missiological perspectives Benefiting from recent studies in sociology of religion Dr Gantenbein offers several detailed contextual case studies before establishing correlations between western cultural religious characteristics and corresponding theological affirmations This study includes several unexpected dimensions including the development of a theological aesthetic in tension with the typically Word alone tradition of Protestantism a constructive reading of the book of Revelation as a source for contemporary aesthetic missiology reflections on a soteriology for the postmodern era and a proposal for an anonymous ecclesiology within a European context where churches are viewed with growing suspicion With rare perspicacity Gantenbein's study creatively calls churches to apply renewed intellectual rigor in faithfulness to their common purpose

France's Memorial Landscape Sophie Fuggle, 2023-09-15 During August 1942 several women jumped to their deaths from a second story window at the tile factory in the small town of Milles near Aix en Provence Between 1939 and 1942 the factory assumed various roles as internment camp transit camp and ultimately deportation camp This book is about the view from the suicide window as it is presented within the Camp des Milles memorial museum which opened in 2012 It explores how this view might help us to understand and imagine the world of internment and deportation camps operating in France during the Second World War and their memorial today The book uses the views framed by the window to think critically about the museography of the memorial within the wider context of France's relatively late acknowledgment of its role in the persecution of the Jews during the Second World War

**The Equilibrium of Parliamentary Law-making** Viktor Kazai, 2024-08-01 This book is a response to the dangers posed to constitutional democracy by the continuous growth of executive power and the simultaneous decline of parliament's role in policy formation These phenomena are often manifested in the manipulation and even the violation of the rules of parliamentary law making called irregularities If left without consequences these irregularities can ultimately lead to

the elimination of the procedural constraints imposed on the ruling political forces to prevent their arbitrary exercise of power This work investigates the constitutional significance of the irregularities of parliamentary law making and explores the role that courts play in the remedy of these flaws The analysis is premised on the concept of equilibrium This explanatory concept denotes an ideal state in which parliamentary law making complies with the requirements of constitutionalism and judicial review is conceptualized as a mechanism suitable to achieve this aim The volume places the judicial review of the regulation and the practice of parliamentary law making at its center and discusses all the relevant legal concepts institutions and doctrines It combines theoretical analysis with case law centered comparative research covering a large number of decisions delivered by apex courts operating in various jurisdictions Due to this methodological choice the book aims to simultaneously contribute to the scholarly discourse and provide useful information to practicing lawyers and policymakers working in the areas of constitutional law and politics and comparative law
