Parliament,1818 **Ideas of Contract in English Political Thought in the Age of John Locke** Martyn P. Thompson,2019-08-01 Originally published in 1987 This book analyses what Englishmen understood by the term contract in political discussions during the late seventeenth and early eighteenth centuries It provides evidence for reconsidering conventional accounts of the relationships between political ideas groups and practices of the period But also suggests cause for examining the general history of modern European contract theory It considers contract as a term appearing in a spectrum of works from philosophical treatise to sermons and polemical pamphlets Looking

at the various vocabularies relating to contractualist ideas the author suggests that standard histories of social contract theory and particular histories of English political thought during this unstable period have misrepresented the meaning of the term contract as a key term in political argument He shows that there were in fact three different categories of contract theory but allows that the various kinds of contractualism did share certain broad features This study of a crucial age in the history of appeals to contract in political argument will be of interest to political philosophers and historians
