Mental Health Practice for the Occupational Therapy Assistant Christine Manville, Jeremy Keough, 2024-06-01 Mental Health Practice for the Occupational Therapy Assistant is a comprehensive text that delineates the role of the occupational therapy assistant in the delivery of mental health services Christine Manville and Jeremy Keough provide information and learning activities that enable the student to build knowledge of mental health

practice incorporating approaches used in the traditional medical model as well as the community. The impact of mental illness on occupational performance across the lifespan is also examined. *Mental Health Practice for the Occupational Therapy Assistant* guides the reader in how to analyze the service environment including cultural, societal, and political factors, explore the client's participation in age-appropriate meaningful occupations, and under supervision of the occupational therapist, provide treatment that includes individual and group interventions. *Mental Health Practice for the Occupational Therapy Assistant* structures each chapter to provide an enhanced approach to student learning by incorporating concepts from Bloom's Taxonomy. Current and emerging trends in mental health practice are discussed, as well as service provision in the traditional medical model. The appendices include a discussion of additional factors that impact the provision and efficacy of therapy services, including pharmacology and ethical and legal issues. *Features* Provides an overview of the DSM-5 and the World Health Organization's International Classification of Functioning, Disability, and Health. These classification systems provide a common language for practitioners from a variety of disciplines to communicate about the impact of mental illness on occupational performance and participation. Describes the use of general educational strategies to enhance the teaching/learning process in the provision of occupational therapy services. *Terminology* from the Occupational Therapy Practice Framework, Third Edition, is utilized to enhance the development of clinical reasoning and practice skills. Provides information on how to communicate effectively with clients. Mental health practice is viewed across the lifespan. *Instructor's materials* include PowerPoint presentations, student study sheets, tests, questions, and application questions for each chapter. Included with the text are online supplemental materials for faculty use in the classroom. *Mental Health Practice for the Occupational Therapy Assistant* is an excellent side-by-side resource for the occupational therapy assistant, occupational therapist, or any practitioner working in a mental health setting.

Health Care for People with Intellectual and Developmental Disabilities across the Lifespan I. Leslie Rubin, Joav Merrick, Donald E. Greydanus, Dilip R. Patel, 2016-04-25. This book provides a broad overview of quality health care for people with intellectual and developmental disabilities (IDD). It focuses on providing the reader a practical approach to dealing with the health and well-being of people with IDD in general terms, as well as in dealing with specific conditions. In addition, it offers the reader a perspective from many different points of view in the health care delivery system, as well as in different parts of the world. This is the 3rd and much expanded edition of a text that was first published in 1989. Lea and Fibiger. The second edition was published in 2006. Paul Brookes and has been used as a formal required text in training programs for physicians, nurses, and nurse practitioners, as well as by administrators who are responsible for programs serving people with IDD. This book is considered the Bible in the field of health care for people with IDD since 1989 when the first edition came out.
