Digital Transformation and the Economics of Banking Piotr Łasak, Jonathan Williams, 2023-11-07 The book provides deep insight into the processes of digital transformation of banking according to economic institutional and social dimensions Together with the transformation of incumbent banks the processes result in changes in the scope of existing banking services Moreover new entities FinTech firms partner with incumbent banks and reshape the banking sector and its financial environment The far reaching transformation of banks and the banking sectors is accompanied by some institutional and socioeconomic processes Regarding institutional processes the book provides insight into the digitalization of the banking sector from a legal point of view Traditionally banking is strongly regulated by norms and rules and this status should be maintained when new entities are entering the sector and or when new technological solutions contribute to the provision of banking services Regarding socioeconomic processes it must be highlighted that digitalization is exerting a powerful impact on societies One significant example among others is the increase in the financial inclusion of disadvantaged groups especially customers either underserved by the traditional financial sector or unbanked The socioeconomic aspect however has a much greater dimension and its selected aspects are described in this book The principal audience of the book will be scholars in the fields of banking and finance but also other related disciplines in the social sciences that are of particular relevance to the banking sector s digital transformation This includes legal science management and psychology The book also targets professionals in the financial industry interested in the impact of new financial technologies on banking sectors and bank services particularly with a main focus on legal and socioeconomic dimensions Chapter 10 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license

Banking Law Survey, 1999/2000 Manfred Heemann, 2001-05-08 As the transnational character of banking and finance activities becomes ever more pronounced there is a clear need for lawyers in the field to become conversant with pertinent legal developments in national jurisdictions other than their own This book takes a major step towards fulfilling that need It not only provides essential orientation in the

banking law of nine countries in which international financial business is commonly transacted but also offers experienced high quality insights into developments and trends in each of these jurisdictions With origins in the discussions of the Banking and Finance Commission of the International Association of Young Lawyers AIJA this important work examines the main areas of banking and finance law across a broad spectrum of areas of law from project finance to financial services regulation Most of the chapters were originally presented as papers at a conference on Managing Banking Risks and Combating Fraud which was jointly organised by IBC and AIJA in London in March 1998 These papers have been updated for inclusion in this work with the addition of a General Report and a new paper on the United States which takes into account the new Financial Services and Modernization Act FSMA Each chapter follows a predetermined outline so the reader can easily make a comparative analysis across the countries covered
