concept of punishment and crime This book comprises two parts 1 a collected volume that discusses camps not as something of the past but as a paradigmatic political space in which ordinary law is completely suspended and 2 an Italian English parallel text of the war diary of an Italian prisoner during his confinement at the Stalag X B internment camp near Sandbostel from 1943 1945

1 *The Human Condition of Exception Collected Essays* Edited by Aisling Reid and Valentina Surace Written in Italian and English the essays collected in this volume explore the issue of camps and suffering from various perspectives including philosophical inquiry literary analysis historical description and legal assessment As Agamben suggests the camp embodies the state of exception A dehumanising camp life will therefore emerge every time such a structure is created What happens in camps exceeds the juridical concept of punishment as well as that of crime Prisoners are faced with a useless pain Levinas as it is not the expiation of a fault Prisoners attempt to describe their extreme suffering through their diaries Their experience however cannot be entirely communicated Even their screams which express humanity at the extreme limit of its un power are silenced Given the recent popularity of right wing politics as well as the centenary of Mussolini s march on Rome such research is more urgent than ever The book will appeal to readers with an interest in philosophy as well as Irish history scholars studying internment during Partition and The Troubles in Northern Ireland

2 *Aldo Quarisa s Diary An Italian English Edition* Edited by Aisling Reid and Valentina Surace Transcribed and with a preface by Galileo Sartor Translation of the diary by Aisling Reid Italian English In 1943 Aldo Quarisa worked at a military school in Florence where he taught literature In October of that year one month after Italy had surrendered to the Allied forces the Italians declared war on the Germans In Florence the German occupiers responded quickly by arresting and deporting people with military connections to numerous concentration camps in Austria Quite suddenly Aldo was detained and deported through a network of camps including Benjaminovo and the Stalag X B internment camp near the German village of Sandbostel For two years he found himself imprisoned alongside other Italians including the celebrated journalist Giovannino Guareschi who secretly kept a diary that was later published as his *Diario Clandestino* 1943 1945 in 1946 Much like Guareschi Aldo also kept a diary and excerpts are published here in both Italian and English for the first time The diary describes in unprecedented detail the monotony of camp life the cruelty of the guards and the prisoners struggle to survive The text is an important document that preserves the memory and voices of all those who suffered during the war and will inevitably be of interest to readers with an interest in World War II

*Dante and the Practice of Humility* Rachel K. Teubner, 2023-07-13 In this book Rachel Teubner offers an exploration of humility in Dante s *Divine Comedy* arguing that the poem is an ascetical exercise concerned with training its author gradually in the practice of humility rather than being a reflection of authorial hubris A contribution to recent scholarship that considers the poem to be a work of self examination her volume investigates its scriptural literary and liturgical sources also offering fresh feminist perspectives on its theological challenges Teubner demonstrates how the poetry of the *Comedy* is theologically significant focusing especially on the poem s

definition of humility as ethically and artistically meaningful Interrogating the text canto by canto she also reveals how contemporary tools of literary analysis can offer new insights into its meaning Undergraduate and novice readers will benefit from this companion just as theologians and scholars of medieval religion will be introduced to a growing body of scholarship exploring Dante's religious thought

Multitude between Innovation and Negation Paolo Virno, 2008-05-30 The influential Italian thinker offers three essays in the political philosophy of language Multitude between Innovation and Negation by Paolo Virno translated by James Cascaito The publication of Paolo Virno's first book in English Grammar of the Multitude by Semiotext e in 2004 was an event within the field of radical political thought and introduced post 68 currents in Italy to American readers Multitude between Innovation and Negation written several years later offers three essays that take the reader on a journey through the political philosophy of language Wit and Innovative Action explores the ambivalence inevitably arising when the semiotic and the semantic grammar and experience rule and regularity and right and fact intersect Virno unravels the infinite potential and wonders of everyday linguistic praxis and ambiguity Wit he argues is a public performance and its modus operandi characterizes human action in a state of emergency it is a reaction an articulate response and a possible solution to a state of crisis Mirror Neurons Linguistic Negation and Mutual Recognition examines the relationship of language and intersubjective empathy without language would human beings be able to recognize other members of their species And finally in Multitude and Evil Virno challenges the distinction between the state of nature and civil society and argues for a political institution that resembles language in its ability to be at once nature and history Few thinkers take the risks required by innovation Like a philosophical entrepreneur Virno is engaged in no less than rewriting the dictionary of political theory an urgent and ambitious project when language caught in a permanent state of emergency impossible to sustain desperately needs to articulate and enact new practices of freedom for the multitude Paolo Virno is the author of several books including A Grammar of the Multitude Semiotext e 2004

**Law and the Exception** Gian-Giacomo Fusco, Przemysław Tacik, 2025-09-26 This book proposes a paradigm shift in the way that the state of exception as it is usually named in legal and political theory is to be understood Building on the assumption that the exception is a heuristic idea that is still a relevant category for a critical deconstruction of law this book argues that it needs to be rethought outside the boundaries of its traditional understanding To this end the book offers two strategies First it develops the ideas of exceptionality and exceptionalisation in order to grasp how measures norms and mechanisms that clearly have an exceptional character are no longer confined within the boundaries of classic institutions such as the state of exception martial law the state of emergency and so on As demonstrated recently during the COVID 19 pandemic legal systems may dissimulate the exceptional as the normal avoiding the use of formal states of exception and adopting measures that are of exceptional nature This book maintains that it is necessary to think of exceptionality outside of its usual legal footholds Emergency laws are considered here as part of a more general sphere of exceptionality that must be understood as the

product of a process of the accumulation of symbols practices notions and images that are only partially expressed through law despite having long populated the legal imagination Second the book offers an analysis of the inner exceptional life of liberal constitutionalism the subterranean authoritarian drives dissimulated by the rule of law This book will interest scholars and researchers in legal and political theory as well as continental philosophy **The Politics of Contested Narratives** Ilse Lazaroms,Emily Gioielli,2016-03-17 The twentieth century in Europe was characterized by great moments of rupture such as two world wars ideological conflict and political polarization In these processes as well as in the historical writing that followed in its wake the individual as an historical entity often appeared crushed In line with contemporary theories about the precariousness of historical writing and the self this volume seeks to understand the important developments in modern Europe from the perspective of the single sometimes isolated but always original viewpoint of individuals inhabiting the space at the other side of the traditional grand narratives Including theoretical chapters as well as detailed case studies this volume takes a biographical approach to dystopian events the Holocaust Fascism Communism and collectivization by starting with the voices of unknown historical actors and relating their experiences to larger processes in modern European history such as the emergence of the national collective memory and state formation as well as changes in the understanding of modern identities and the re formulation of the self This book was originally published as a special issue of the European Review of History **Integrity and Historical Research** Tony Gibbons,Emily Sutherland,2012-03-12 Integrity and Historical Research offers a stimulating discussion about the ethical use of historical research material by writers and filmmakers What does using another s research with integrity really entail *The Holocaust in Italian Culture, 1944-2010* Robert Gordon,2012-07-11 The Holocaust in Italian Culture 1944 2010 is the first major study of how postwar Italy confronted or failed to confront the Holocaust Fascist Italy was the model for Nazi Germany and Mussolini was Hitler s prime ally in the Second World War But Italy also became a theater of war and a victim of Nazi persecution after 1943 as resistance collaboration and civil war raged Many thousands of Italians Jews and others were deported to concentration camps throughout Europe After the war Italian culture produced a vast array of stories images and debate through which it came to terms with the Holocaust s difficult legacy Gordon probes a rich range of cultural material as he paints a picture of this shared encounter with the darkest moment of twentieth century history His book explores aspects of Italian national identity and memory offering a new model for analyzing the interactions between national and international images of the Holocaust *L'interprete di Auschwitz* Gabriele Rigano,2017-03-13 **Italian Literature since 1900 in English Translation** Robin Healey,2019-03-14 Providing the most complete record possible of texts by Italian writers active after 1900 this annotated bibliography covers over 4 800 distinct editions of writings by some 1 700 Italian authors Many entries are accompanied by useful notes that provide information on the authors works translators and the reception of the translations This book includes the works of Pirandello Calvino Eco and more recently Andrea Camilleri and Valerio Manfredi Together with Robin

Healey's Italian Literature before 1900 in English Translation also published by University of Toronto Press in 2011 this volume makes comprehensive information on translations from Italian accessible for schools libraries and those interested in comparative literature

**Writing the Holocaust** Zoë Vania Waxman, 2008-06-26 Arguing against the prevailing view that Holocaust survivors encouraged by a new and flourishing culture of witnessing have come forward only recently to tell their stories Writing the Holocaust examines the full history of Holocaust testimony from the first chroniclers confined to Nazi enforced ghettos to today's survivors writing as part of collective memory Zo Waxman shows how the conditions and motivations for bearing witness changed immeasurably She reveals the multiplicity of Holocaust experiences the historically contingent nature of victims responses and the extent to which their identities secular or religious male or female East or West European affected not only what they observed but also how they have written about their experiences In particular she demonstrates that what survivors remember is substantially determined by the context in which they are remembering

**Christian Theology and Tragedy** Kevin Taylor, Giles Waller, 2016-05-23 Drawing together leading scholars from both theological and literary backgrounds Christian Theology and Tragedy explores the rich variety of conversations between theology and tragedy Three main areas are examined theological readings of a range of tragic literature from plays to novels and the Bible itself how theologians have explored tragedy theologically and how theology can interact with various tragic theories Encompassing a range of perspectives and topics this book demonstrates how theologians can make productive use of the work of tragedians tragic theorists and tragic philosophers Common misconceptions that tragedy is monolithic easily definable or gives straightforward answers to theodicy are also addressed Interdisciplinary in nature this book will appeal to both the theological and literary fields

**The Flavors of Modernity** Gian-Paolo Biasin, 2017-03-14 From Rabelais's celebration of wine to Proust's madeleine and Virginia Woolf's boeuf en daube in To the Lighthouse food has figured prominently in world literature But perhaps nowhere has it played such a vital role as in the Italian novel In a book flowing with descriptions of recipes ingredients fragrances country gardens kitchens dinner etiquette and even hunger Gian Paolo Biasin examines food images in the modern Italian novel so as to unravel their function and meaning As a sign for cultural values and social and economic relationships food becomes a key to appreciating the textual richness of works such as Lampedusa's The Leopard Manzoni's The Betrothed Primo Levi's Survival in Auschwitz and Calvino's Under the Jaguar Sun The importance of the culinary sign in fiction argues Biasin is that it embodies the oral relationship between food and language while creating a sense of materiality Food contributes powerfully to the reality of a text by making a fictional setting seem credible and coherent a Lombard peasant eats polenta in The Betrothed whereas a Sicilian prince offers a monumental macaroni timbale at a dinner in The Leopard Similarly Biasin shows how food is used by writers to connote the psychological traits of a character to construct a story by making the protagonists meet during a meal and even to call attention to the fictionality of the story with a metanarrative description Drawing from anthropology psychoanalysis sociology

science and philosophy the author gives special attention to the metaphoric and symbolic meanings of food Throughout he blends material culture with observations on thematics and narrativity to enlighten the reader who enjoys the pleasures of the text as much as those of the palate Originally published in 1993 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
