

ASSEMBLY INSTRUCTIONS

Continue to snap tent corners using side ropes. Repeat the same procedure you used for the center ridge.

STEP 7: Insert the pin attached to each corner of the tent into the open end of each corner pole.

Locate the frame line at each side corner of the tent and tie to frame.

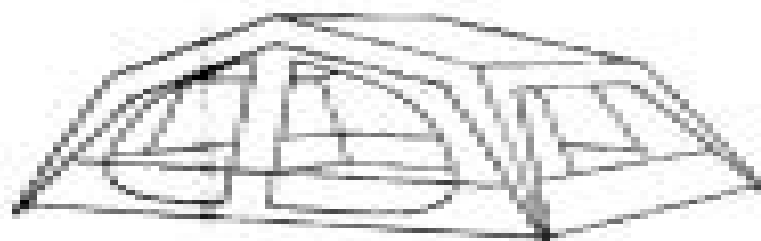

STEP 8: Stake down tent by inserting the longer stakes through outer loops located at each corner. Pushing into ground by using a hammer or mallet. Make sure to put tent out even and tight. Continue staking down remaining outer loops.

Tent should appear as shown.

STEP 9: With the help of another person, place fly over tent, snapping peaks of fly in line with the corner peaks of the tent. Gromets should be in midpoints of fly. Stretch fly snugly and attach the inner frame or outer corner of fly to the open end of each frame pole, using opposite ends of the corner lines.

Tent should appear as shown.

NOTE: If you choose to use your tent fly, use a waterproof seal, securing the seal by stitching steps 5, 6 & 7 and connecting with step 8.

NOTE: A optional line is provided for dividing your tent into two halves. Locate the line attached to corners and tie to tent.

For your convenience, there are storage bags located inside your tent. These can be used for many small camping items.

Also, convenience pockets are provided for storing small camping gear.

NOTE: To take down tent, follow the above steps in the reverse order. Be sure to remove all equipment. Place stakes into outer bag which is provided.

The tent features two outer double lengthwise footed fly doors. At opposite end of the door, there is small light cut with poles placed on top and not toward the door. Close rolled, use a string or rope around tent to fasten poles. Slide tent, along with poles and outer bag, into carry bag.
