

## SELECTING RIBBON COLOR

*... typing stencils*

The Ribbon Color Selector (15) on the upper right of the keyboard regulates which part of the ribbon is used for typing. Push the lever up to type with the black part and down to type with red. To type stencils, set the Selector at the middle position, where the keys will leave no inked impression.

## TOUCH SELECTOR

With the Touch Selector (22) on your new Sears Electric, you can adjust the tension on the typing keys to match your own typing touch. The Selector is on the bottom of the typewriter, under the Spacebar. For a light typing touch, turn the dial towards L; for a heavier touch, turn it towards H.

## TABULATOR

Any time you need to skip the same number of spaces several times in typing, you save time and energy by using the Tab Bar (30). To type columns or indent paragraphs, for example, move the carriage to the desired spot, and depress the Tab SET Key (29). Do this for as many tab stops as you need. Each time you want to type at one of these spots, depress the Tab Bar. The carriage will move to each succeeding stop each time the bar is depressed.

To clear a stop, tabulate to it and depress the CLEAR Key (14). To clear all stops at once if you're at the end of a typing line, press the Carriage RETURN Key and the CLEAR Key at the same time. If you're at the beginning of a line, depress the Tab Bar and CLEAR Key at the same time.

Avon Calling!** Katina Manko, 2021-06-04 The Avon Lady acquired iconic status in twentieth century American culture This first history of Avon tells the story of a direct sales company that was both a giant in its industry and a kitchen table entrepreneurial venture With their distinctive greeting at the homes across the country Ding Dong Avon Calling sales ladies brought door to door sales of makeup perfume and other products to American women beginning in 1886 Working for the company enabled women to earn money on the side and even become financially independent in a respectable profession while selling Avon s wares to friends family and neighborhood networks Ding Dong Avon Calling is the story of women and entrepreneurship and of an innovative corporation largely managed by men that empowered women to exploit networks of other women and their community for profit Founded in the late nineteenth century Avon grew into a massive international direct sales company in which millions of ambassadors of beauty sat in their customers living rooms with a sample case catalogue and a conversational sales pitch Avon was unique in American business history for its reliance on women as representatives promising them not just sales positions but a chance to have a business of their own Being an Avon Lady avoided the stigma that was often attached to middle class women s work outside the home and enabled women to maintain the delicate balance of work and family Drawing for the first time on company records she helped acquire for archives Katina Manko illuminates Avon s inner workings uncovers the lives of its representatives and

shows how women slowly rose into the company's middle and upper management. Avon called itself The Company for Women and championed its high flyers but its higher echelons remained dominated by men well into the 1990s. Avon is more than perfumes and toiletries but a brand built on women knocking on doors and chatting up neighbors. It thrived for more than a century through the deceptively simple technique of women directly selling beauty to women at home. One Thousand Useful Books American Library Association, 1924

Measures of Personality and Social Psychological Constructs Gregory J. Boyle, Donald H. Saklofske, Gerald Matthews, 2014-09-04

Measures of Personality and Social Psychological Constructs assists researchers and practitioners by identifying and reviewing the best scales measures for a variety of constructs. Each chapter discusses test validity, reliability, and utility. Authors have focused on the most often used and cited scales measures with a particular emphasis on those published in recent years. Each scale is identified and described, the sample on which it was developed is summarized, and reliability and validity data are presented, followed by presentation of the scale in full or in part where such permission has been obtained. Measures fall into five broad groups. The emotional disposition section reviews measures of general affective tendencies and or cognitive dispositions closely linked to emotion. These measures include hope and optimism, anger and hostility, life satisfaction, self-esteem, confidence, and affect dimensions. Emotion regulation scales go beyond general dispositions to measure factors that may contribute to understanding and managing emotions. These measures include alexithymia, empathy, resiliency, coping, sensation seeking, and ability and trait emotional intelligence. The interpersonal styles section introduces some traditional social psychological themes in the context of personality assessment. These measures include adult attachment concerns with public image and social evaluation and forgiveness. The virtues and vices section reflects adherence to moral standards as an individual characteristic shaped by sociocultural influences and personality. These measures include values and moral personality, religiosity, dark personalities, Machiavellianism, narcissism, and subclinical psychopathy and perfectionism. The sociocultural interaction and conflict section addresses relationships between different groups and associated attitudes. These measures include cross-cultural values, personality, and beliefs, intergroup contact, stereotyping, and prejudice, attitudes towards sexual orientation, and personality across cultures. Encompasses 25 different areas of psychology research. Each scale has validity, reliability, info on test bias, etc. Multiple scales discussed for each construct. Discussion of which scales are appropriate in which circumstances and to what populations. Examples of scales included
