Human Dignity of the Vulnerable in the Age of Rights Aniceto Masferrer,Emilio García-Sánchez,2016-08-26 This volume is devoted to exploring a subject which on the surface might appear to be just a trending topic In fact it is much more than a trend It relates to an ancient permanent issue which directly connects with people s life and basic needs the recognition and protection of individuals dignity in particular the inherent worthiness of the most vulnerable human beings The content of this book is described well enough by its title Human Dignity of the Vulnerable in the Age of Rights Certainly we do not claim that only the human dignity of vulnerable people should be recognized and protected We rather argue that since vulnerability is part of the human condition human vulnerability is not at odds with human dignity To put it simply human dignity is compatible with vulnerability A concept of human dignity which discards or denies the dignity of the vulnerable and weak is at odds with the real human condition Even those individuals who might seem more skilled and talented are fragile vulnerable and limited We need to realize that human condition is not limitless It is crucial to re discover a sense of moderation regarding ourselves a sense of reality concerning our own nature Some lines of thought take the opposite view It is sometimes argued that humankind is or is called to be powerful and that the time will come when there will be no vulnerability no fragility no limits at all Human beings will become like God or what believers might think God to be This perspective rejects human vulnerability as in intrinsic evil Those who are frail or weak who are not autonomous or not able to care for themselves do not possess dignity In this volume it is claimed that vulnerability is an inherent part of human condition and because human dignity belongs to all individuals laws are called to recognize and protect the rights of all of them particularly of those who might appear to be more vulnerable and fragile     Catalogue of Title-entries of Books and Other Articles Entered in the Office of the Librarian of Congress, at Washington, Under the Copyright Law ...
