The Hills Reply Tarjei Vesaas,2019-12-10 There s beauty to be found outdoors but it s not without its horrors The conflicted role of humans in nature is a familiar theme but few narratives hum with the surreal power of this one Kirkus Reviews An intensely graceful novel recounting scenes of the Norwegian countryside from one of Norway s most beloved 20th century writers Tarjei Vesaas s final work *The Hills Reply* is a flow of intensely lyrical autobiographical scenes The vivid beauty of the wilds of Norway grounds the narrator s interior flashes The first sketch finds a boy his father and their packhorse clearing a logging road buried in snow as their surroundings give way to a crisis Profound insights into human behavior solitude and nonverbal communication stand up to the power and immensity of the natural world The land speaks to and at times almost swallows the central character as he is pushed to the edge of what a body and mind can endure The hypnotic pulse of Vesaas s prose blurs the line between memory and hallucination as it stares bravely into the unblinking eye of Nature An unforgettable book *The Hills Reply* is a visceral salute to the human spirit to the ecstasy of wilderness and to their tender overlapping

Before Manifest Destiny Nicholas G. DiPucchio, 2025-05-16 How the contours of the United States took shape and what they might have been There was nothing predestined about the now familiar shape of the United States of America Early visions of what the new country's borders could encompass included Canadian provinces Caribbean islands and even Kamchatka in eastern Russia In Before Manifest Destiny Nicholas DiPucchio tells the surprising dramatically contingent story of the United States expansion focusing in particular on the ultimately unrealized territorial ambitions cherished by many Americans in the early republic Between the 1770s and 1820s American expansionists made efforts to annex Bermuda Upper Canada Cuba and vast swathes of the Pacific Northwest As DiPucchio shows however local populations from small

groups of Caribbean merchants to Indigenous populations to rival imperial powers contested their efforts helping define the boundaries of the United States and forcing its leaders to recalibrate their expectations of the nation's growth. Rather than the inevitable procession it may appear to be in retrospect the story of early US expansion was in many ways defined by thwarted ambitions and unfulfilled possibilities. Halted in the Atlantic East the Canadian North and the Caribbean South antebellum expansionists eventually declared it their manifest destiny to overspread the West.

A History of the British and Foreign Bible Society William Canton, 1904

Deluge Sydney Fowler Wright, 2003 First published in 1927 Deluge is one of the most famous of the English catastrophe novels. Beautifully written and action packed RKO Radio Pictures even filmed this story. The novel depicts a flood so severe that it destroys modern civilization leaving the few survivors to adapt to the rigors of the natural world. Like other English writers responding to the trauma of World War I Sydney Fowler Wright expresses a loathing of the worst aspects of industrialization. The flood in his view becomes an opportunity for the remaking of society. The protagonists soon realize that civilization and technology have divorced them from the knowledge and skills necessary for survival. Released from their over reliance on social regulation they struggle to overcome their own brutality to develop a new sense of community. For over 75 years readers have praised this book for its style and wisdom and debated the meaning of its controversial ending. This Wesleyan edition is graced with an excellent introduction and annotations by leading science fiction scholar Brian Stableford.

Realizing the Dream of R.A. Kartini Joost Coté, 2008 Realizing the Dream of R.A. Kartini Her Sisters Letters from Colonial Java presents a unique collection of documents reflecting the lives, attitudes and politics of four Javanese women in the early twentieth century. Joost J. Coté translates the correspondence between Raden Ajeng Kartini, Indonesia's first feminist and her sisters, revealing for the first time her sisters' contributions in defining and carrying out her ideals. With this collection Coté aims to situate Kartini's sisters within the more famous Kartini narrative and indirectly to situate Kartini herself within a broader narrative. The letters reveal the emotional lives of these modern women and their concerns for the welfare of their husbands and the success of their children in rapidly changing times. While by no means radical nationalists and not yet extending their horizons to the possibility of an Indonesian nation, these members of a new middle class nevertheless confidently express their belief in their own national identity. Realizing the Dream of R.A. Kartini is essential reading for scholars of Indonesian history, providing documentary evidence of the culture of modern urban Java in the late colonial era and an insight into the ferment of the Indonesian nationalist movement in which these women and their husbands played representative roles.

Dream Super-Express Jessamyn Abel, 2022-01-11 A symbol of the new Japan displayed at World's Fairs, depicted in travel posters and celebrated as the product of a national spirit of innovation, the Tokaido Shinkansen, the first bullet train, dubbed the dream super express, represents the bold aspirations of a nation rebranding itself after military defeat but also the deep problems caused by the unbridled postwar drive for economic growth. At the dawn of the space age, how could a train become such an important symbol? In *Dream Super Express* Jessamyn Abel contends

that understanding the various often contradictory images of the bullet train reveals how infrastructure operates beyond its intended use as a means of transportation to perform cultural and sociological functions The multi layered dreams surrounding this high speed railway tell a history not only of nation building but of resistance and disruption Though it constituted neither a major technological leap nor a new infrastructural connection the train enchanted enthralled and enraged government officials media pundits community activists novelists and filmmakers This history of imaginations around the monumental rail system resists the commonplace story of progress to consider the tug of war over the significance of the new line Is it a vision of the future or a reminder of the past an object of international admiration or a formidable threat Does it enable new relationships and identities or reify existing social hierarchies Tracing the meanings assigned to high speed rail shows how it prompted a reimagination of identity on the levels of individual metropolis and nation in a changing Japan The Saturday Review of Politics, Literature, Science, Art, and Finance ,1862 **A History of the British and Foreign Bible Society: Second period continued.
