**The Edge of Words** Rowan Williams, 2014-09-25 The Edge of Words is Rowan Williams first book since standing down as Archbishop of Canterbury Invited to give the prestigious 2014 Gifford Lectures Dr Williams has produced a scholarly but eminently accessible account of the possibilities of speaking about God taking as his point of departure the project of natural theology Dr Williams enters into dialogue with thinkers as diverse as Augustine and Simone Weil and authors such as Joyce Hardy Burgess and Hoban in what is a compelling essay about the possibility of language about God *The Practice of the Presence of God* Martin Laird, Sheelah Treflé Hidden, 2016-11-29 Exploring the unity of the practice of prayer and the practice of theology this book draws together insights from world class theologians including Rowan Williams Andrew Louth Frances Young Margaret R Miles Sebastian Brock and Nichola Sakharov Offering glimpses of the prayer life and witness that undergirds theological endeavour some authors approach the topic in a deeply personal way while others express the unity of prayer and the theologian in a traditionally scholarly manner No matter what the denomination of the Christian theologian Greek or Russian Orthodox Roman Catholic Anglican Methodist authors demonstrate that the discipline of theology cannot properly be practiced apart from the prayer life of the theologian The prayer of the theologian shapes her or his approach to theology Whether it be preaching teaching writing or research the deep soundings of prayer inform and embrace all

**Rewriting the Word "God"** Romana Huk, 2025 Innovative poetry philosophy theology and new sciences converge in the project of rewriting the word God In *Rewriting the Word God* Romana Huk examines the substantive connections between innovative poetry of the last century and contemporary theology and philosophy Along the way we encounter ten poets who have without abandoning their inherited or chosen faith traditions radically rethought conceptualizations of divinity human ontology and the real From the startlingly proto phenomenological encounters with nature by Gerard Manley Hopkins to the post deconstructive pursuit of oracular speech in Fanny Howe these poets have found inspiration in a wide range of sources from ancient religious texts to modern philosophical movements But what unites them is their willingness to continually change experiment and challenge the status quo both in their religious beliefs and their poetic practice Huk shows how these poets have used their work to explore ultimate questions of life and death meaning and purpose and the relationship between humans and materiality humans and other humans which for these poets sheds light on humanity's relationship with the divine She also highlights the ways in which they have engaged with social and political issues in their poetry to speak out against injustice and oppression *Rewriting the Word God* is a thought provoking and inspiring work that will challenge current perceptions of both religion and poetry from new positions at the intersection of faith art philosophy science literary theory and culture **Fictions of God** Frank England, 2020-06-08 Fiction and theology share an attempt to articulate what it means to be human They both include narrative accounts of virtue and vice moral worth and moral failure Through the themes of courtesy brutality silence sound and divine absence the sacred nature and character of being human is explored in

Duncan,Jacob L.

Goodson,2016-11-09 Centered upon the lives of employees at a Manhattan advertising firm the AMC television series Mad Men touches on the advertising world s unique interests in consumerist culture materialistic desire and the role of deception in Western capitalism While the subject matters of the chapters in this collection have a decidedly socio historical focus the authors use basic topics as starting points for philosophical religious and theological reflections The authors show how Mad Men reveals deep truths concerning the social trends of the 1960s and early 1970s in American life and deserves a significant amount of reflection from philosophical religious and theological perspectives Some of the chapters go beyond mere reflection and make deeper inquiries into what these trends say about American cultural habits the business world within Western capitalism and the rapid social changes gender race and sexuality that occur during this period Chapters examine paradigms of masculinity and femininity as well as the presentation of motherhood fatherhood sexuality and childhood This collection shows how social change represents the undercurrent of the interpersonal dramas of the characters on Mad Men from the staid and conventional early seasons to the war assassinations riots and counterculture of later seasons

**The Sparkle from the Coal** Barbara Howard,2024-10-31 Perhaps one of the least appreciated aspects of Rowan Williams is his theology of imagination Seeking to fill this gap this book explores the imaginative impulse operative in Rowan Williams theology and poetry which centres around the notion of divine desire and the way in which imagination can reveal possibility even in the bleakest of circumstances Drawing on his poetic work as well as his theological writing the book explores how Williams theology leads us to a fresh understanding of the ways in which the renewing and enabling energy of the Holy Spirit is ever active within and beyond the Church in enabling human imaginations to cooperate with the divine energy of love in bringing creation to fulfilment *The Humane Perspective* John Cottingham,2024-07-12 The book brings together fourteen essays from the work of John Cottingham on moral philosophy and the philosophy of religion spanning the past fifteen years The papers are closely related in so far as they all deal with the perennial moral and spiritual challenges of human existence and the search for meaning and value in human life As well as being thematically linked they also share a common style and methodology illustrating the distinctive goal that has increasingly informed the author s work in recent years that of promoting a more humane conception of philosophizing While in no way discarding the technical tools of the professional philosopher such as abstract argumentation and analysis whose value and importance are unquestionable this approach is notable for drawing on the full range of resources available to the human mind including those that depend on literary artistic poetic imaginative aesthetic and emotional modes of awareness In contrast to the model of the philosopher as a kind of detached scrutineer the essays exemplify the belief that there is a distinctive and valuable kind of philosophical understanding that requires a more involved and engaged stance The philosophical questions dealt in the volume all fall broadly within the familiar domains of moral philosophy and the philosophy of religion but the reflections offered on these areas of human thought and practice always aim to be sensitive to how morality and religion actually operate in the lives of

the human beings involved      **Secularism and the Pursuit of Transcendence, Volume II** Stanley E. Porter, Wendy J. Porter, 2025-02-19 We live in a secular age or so we have been told Nevertheless the Christian church strongly believes that we still experience and in fact are surrounded by acts of transcendence encounters with God that often defy imagination and explanation And yet we do try to explain such phenomena whether theologically experientially biblically historically philosophically literarily or even or especially artistically These two volumes are more than just papers from a major conference on secularism and the pursuit of transcendence held at McMaster Divinity College in Hamilton Ontario They contain genuine attempts by people deeply engaged with their secular surroundings to explain what we mean by transcendence Transcendence has been a longstanding topic among the best thinkers of this and previous ages and the same is true for these volumes which include contributions by Charles Taylor Robert Wuthnow Merold Westphal and Christina Gschwandtner but also by a wide range of others who address the question from divergent vantage points The responses vary as much as the orientations of those involved in the pursuit of defining not only what it means to live in our secular age but to be involved in the pursuit of transcendence or even to perceive the Transcendent s pursuit of us      **Theology, Music, and Modernity** Jeremy Begbie, Daniel K L Chua, Markus Rathey, 2021-02-02 Theology Music and Modernity addresses the question how can the study of music contribute to a theological reading of modernity It has grown out of the conviction that music has often been ignored in narrations of modernity s theological struggles Featuring contributions from an international team of distinguished theologians musicologists and music theorists the volume shows how music and discourse about music has remarkable powers to bring to light the theological currents that have shaped modern culture It focuses on the concept of freedom concentrating on the years 1740 1850 a period when freedom especially religious and political freedom became a burning matter of concern in virtually every stratum of Western society The collection is divided into four sections each section focusing on a key phenomenon of this period the rise of the concept of revolutionary freedom the move of music from church to concert hall the cry for eschatological justice in the work of black hymn writer and church leader Richard Allen and the often fierce tensions between music and language There is a particular concern to draw on a distinctively Scriptural imagination especially the theme of New Creation in order to elicit the key issues at stake and to suggest constructive ways forward for a contemporary Christian theological engagement with the legacies of modernity today      *Rhythm* Lexi Eikelboom, 2018-08-17 *Rhythm A Theological Category* argues that as a pervasive dimension of human existence with theological implications rhythm ought to be considered a category of theological significance Philosophers and theologians have drawn on the category of rhythm patterned movements of repetition and variation to describe reality however the ways in which rhythm is used and understood differ based on a variety of metaphysical commitments with varying theological implications Lexi Eikelboom brings those implications into the open through using resources from phenomenology prosody and the social sciences to analyse and evaluate uses of rhythm in metaphysical and theological accounts of reality The

analysis relies on a distinction from prosody between a synchronic approach to rhythm which observes the whole at once and considers how various dimensions of a rhythm hold together harmoniously and a diachronic approach which focuses on the ways in which time unfolds as the subject experiences it Based on an engagement with the twentieth century Jesuit theologian Erich Przywara alongside thinkers as diverse as Augustine and the contemporary philosopher Giorgio Agamben Eikelboom proposes an approach to rhythm that serves the concerns of theological conversation It then demonstrates the difference that including rhythm in such theological conversation makes to how we think about questions such as what is creation and what is the nature of the God creature relationship from the perspective of rhythm As a theoretical category capable of expressing metaphysical commitments yet shaped by the cultural rhythms in which those expressing such commitments are embedded rhythm is particularly significant for theology as a phenomenon through which culture and embodied experience influence doctrine

*The Hope of Glory* Ian A. McFarland, 2024-10-01 The Hope of Glory affirms a Christian hope for life in glory to be conceived as the renewal of this world as opposed to leaving this world behind it is the same creation that God made in the beginning that God glorifies and redeems at the end When speaking of the redemption of all things theology finds itself confronted by various pitfalls On the one hand this worldly eschatologies that define Christian hope in terms of transforming the conditions of human existence in the present pay insufficient attention to the possibility of a wholly new creation On the other hand eschatologies that focus solely on the world to come fail to attend how Christian hope is a promise for the present as much as it is for the future To avoid these pitfalls says Ian McFarland we need to seek the balance struck by Paul in the phrase the hope of glory Col 1 27 Hope is always grounded in present reality we hope for that which is not yet but if that hope has no connection to our current experience it is not hope at all just wishful thinking Yet glory is different it refers to the displacement of the suffering and mortality of present experience with incorruption and immortality a displacement that transcends every possibility of present existence because it is the utterly gracious gift of eschatological consummation Drawing on his previous work on creation From Nothing and incarnation The Word Made Flesh McFarland demonstrates how in the resurrection we see the promise of a final redemption grounded in this worldly hope yet realized in the glory of a new heaven and new earth

God's Song and Music's Meanings James Hawkey, Ben Quash, Vernon White, 2019-07-23 Taking seriously the practice and not just the theory of music this ground breaking collection of essays establishes a new standard for the interdisciplinary conversation between theology musicology and liturgical studies The public making of music in our society happens more often in the context of chapels churches and cathedrals than anywhere else The command to sing and make music to God makes music an essential part of the DNA of Christian worship The book's three main parts address questions about the history the performative contexts and the nature of music Its opening four chapters traces how accounts of music and its relation to God the cosmos and the human person have changed dramatically through Western history from the patristic period through medieval Reformation and modern times A second section

examines the role of music in worship and asks what if anything makes a piece of music suitable for religious use The final part of the book shows how the serious discussion of music opens onto considerations of time tradition ontology anthropology providence and the nature of God A pioneering set of explorations by a distinguished group of international scholars this book will be of interest to anyone interested in Christianity's long relationship with music including those working in the fields of theology musicology and liturgical studies

**Richard Hooker** Philip Hobday, 2023-09-07 For some Hooker and Anglicanism are basically reformed for others fundamentally Catholic for some embodying a middle way between Roman Catholic and Protestant extremes and for others simply confused and incoherent This book challenges those perceptions by showing that reformed and catholic are not intrinsically opposed Reading Hooker alongside a representative theologian of each tradition the catholic Aquinas and the reformed Calvin on theological method Hobday shows there is much greater congruity between theologies and theologians often considered in tension On the role of scripture in theology the theological capacity of human reason and the place of tradition these 3 theologians have far more in common than many subsequent commentators have understood This book shows how both Hooker and the Anglicanism he defended in such elegant prose can be coherently both catholic and reformed rather than one or the other or some middle way Relocating Hooker and Anglicanism in this way reveals them to be rich fruitful conversation partners in ecumenical dialogue and theological debates across Christian traditions

**Climate of the Soul** Andrew D. Mayes, 2022-05-17 This book bears us on eagles wings into the vault of the heavens and plunges us into the hidden depths of the soul As the climate crisis alerts us to the state of the planet so we look into our soul We see how the Bible and classic spiritual writers use arresting meteorological imagery to describe both the discovery of the Divine and the condition of humanity We explore a rich and diverse vocabulary archetypal universal and primal enabling us to describe the movements of the soul These images and metaphors help us express what is going on in our spiritual lives as we learn the skill of reading the climate of our soul Attentiveness to the ecology of the soul leads to a sharper perception of the environmental issues facing our planet This book helps us to look differently at our turbulent world within the interplay of microcosm of soul and macrocosm of climate celebrating a sacramental approach to the universe to the elements and to ourselves

**Landscape, Soul and Spirit** Andy Lord, 2025-02-11 How might we develop our spirituality in the context of an environmental crisis that demands changes to our individual and communal ways of life There is a challenge to develop our inherited patterns of spiritual life in the current ecological context This book aims to reflect on the Christian contemplative tradition in dialogue with writings of the leading nature writer Robert Macfarlane The argument is that each of his six books can be seen as nurturing a particular spiritual practice In this Macfarlane's focus on interactions between landscapes and the soul is extended to include the spirit At a time of crisis it is important to nourish contemplative approaches that engage our longings attentiveness and sense of time These enable us to discover renewal hear fresh voices and live in union with all of life This book acts both as an introduction to Macfarlane and a stimulus to

further reflection on spirituality and the environment      **Whistling in the Dark** Janice McRandal, Stephen John Wright, 2024-03-29 This lively collection of interdisciplinary essays engages the theology of Craig Keen. Keen's work responds to the violence of metaphysics through a still and considered focus on divesting oneself of power. Acutely aware of the problems of modern theology, Keen does not set out to solve every puzzle but instead responds to difficult questions with hope and prayer. For Keen, theology is never to be the acquisition of knowledge but the giving of love. He writes in such a way as to create space for voices of difference and dissent. The essays included in this volume do not just interpret, explain, or critique Keen's thought but they seek to accompany him in attentiveness to difference and pain. As such, they engage with the same concerns as Keen: the violence of concepts, the suffering of individuals, the divestment of power, and the embodiment of prayer and doxology.

Dante and the Practice of Humility Rachel K. Teubner, 2023-07-13 Examines humility as a key to the Comedy's poetry, demonstrating its theological vibrancy for today's readers.
