cultural critique of the film industry at a time when the industry lacked the capacity to critique itself. While the young studio system worked tirelessly to burnish its public image in the wake of celebrity scandal, several industry insiders wrote fiction to fill in what newspapers and fan magazines left out. Throughout the 1920s and 1930s, these novels aimed to expose the invisible machinery of classical Hollywood cinema, including not only the evolving artifice of the screen but also the promotional discourse that complemented it. As likeminded filmmakers in the 1940s and 1950s gradually brought the dark side of the industry to the screen, however, the Hollywood novel found itself struggling to live up to its original promise of delivering the unfilmable. By the 1960s, desperate to remain relevant, the genre had devolved into little more than erotic fantasy of movie stars behind closed doors, perhaps the only thing the public couldn't already find elsewhere. Still, given their unique ability to speak beyond the institutional restraints of their time, these earlier works offer a window into the industry's dynamic creation and re-creation of itself in the public imagination.

Stephen Sondheim Joanne Gordon, 1999-11. A collection of 14 original essays examines the contemporary US dramatist's plays in chronological order, highlighting how each evolved from his previous work. Among the topics are images of women in the musicals *Nixon's American* and *Follies*. Sondheim as master games player on performing Sondheim: the art of illusion in *Pacific Overtures* and *Assassins*, and the concept musical. Annotation copyrighted by Book News Inc. Portland, OR.

Daemon in the Sanctuary Wendy C. Hamblet, 2013. *Daemon in the Sanctuary* explores the uncanny contradiction between the phenomenological experience of home as a site of nurture and security and the empirical reality that people are far more likely to be hurt and even killed in their own homes by their intimates rather than at the hands of strangers. Moving from the syrupy tributes of the god of love in Plato's *Symposium* to the subject of domestic violence, it appears to be a giant leap, but the author shows that embroidered romantic ideas about love prepare the initiate poorly for the reality of intimate connection. Poets and philosophers who lead us to believe that love is heaven-sent can leave us craving an extreme experience. We crave an earth-shaking, life-altering intrusion on our tranquility as evidence that love is real. Thus the naive initiate can easily mistake the flutter of the pulse, the quickening of the heart rate, the flush, the confused emotions, and the painful longing as signs of the god's gift. But these are also the signs of fear. Wendy C. Hamblet, a philosopher in the phenomenological lineage, examines the truth value of phenomenological experience through the lens of the problem of intimate violence. If Husserl is right and phenomenological method provides the ground of all empirical truth, then what is to be made of the fundamental contradiction between the lived experience of home as a site of nurture and security and of intimates as guardians and caretakers and the empirical fact evident in every human society that people are far more likely to be harmed and even killed in their homes or in the homes of their intimates and at the hands of those charged with their care? Hamblet carefully choreographs a dance between the two opposing truths to expose how the lived sense of home, colored by ideals, can tint people's expectations about intimate connection and cloud their ability to recognize the signs of intimate abuse. This book illuminates the dangers and pitfalls of

unhealthy intimacy and offers a regimen for loosening the grip of a sickened love's pathological hold **The Last Genet**
Hadrien Laroche, 2010-10-05 The final decades of Jean Genet's life were preoccupied with the struggles of the
disenfranchised the Black Panthers Baader Meinhoff and the Palestinians Laroche's book is a careful philosophical and
historical reading of these groups and Genet's relation to them
