Isaac, 2022-10-18 Quite often theology and spirituality are separated pursued without reference to the other a classic example of the disjunction between head and heart But in Luther we find a profound theologian exhibiting a profound spirituality one that still speaks to us today Luther sets out three rules for doing proper theology oratio meditatio tentatio or prayer meditation and spiritual trial These three rules derived from David the psalmist provide a way for readers to investigate more thoroughly what Luther says about the important practice of theology or life in the Spirit But they also serve as a simple way for Christians to live a fuller spiritual life The intention of this book is to help readers enter into the world of Luther the Augustinian monk and Reformer who prays meditates and suffers spiritual trial within the community of faith that extends over the centuries Ever the teacher and pastor himself Gordon Isaac invites readers into the reality of living a theology of the cross which helps make sense of our present struggles in this world and shows us how we can live in the love of God as revealed through Jesus Christ **The Forgiveness of Others** Ashraf H. A. Rushdy, 2025-05-02 The Forgiveness of Others claims that forgiveness is a complex and dynamic moral practice that raises metaphysical questions about the meaning of change and of personal identity When we forgive we are transformed from one state resentment say and one identity injured party to another state and identity someone forgiving By looking closely at various accounts of forgiving and being forgiven and of being unforgiving and unforgiven this book explores how often we find cases in which we have substitutions as well as transformations Rushdy focuses on two kinds of substitutions cases in which we have survivors who forgive on behalf of the absent injured party and cases in which we have proxies who are forgiven on behalf of the wrongdoer He contends that these substitutions help us more fully understand the dynamic conditions of forgiveness What might seem to some to be violations of the protocols of forgiveness being offered by and to others is arguably the crux of forgiveness as a moral practice that transforms those who offer and receive it in a way that represents or effects their transformation This volume advocates a pluralist approach that traces an alternative path between those who argue that forgiveness is meaningful only if it follows a particularly restrictive paradigm and those who argue that it is meaningless because it is either futile or impossible *The Last Nazi Trials* Moritz Vormbaum, 2024-12-31 80 years after the Nuremberg trial the prosecution of Nazi perpetrators has effectively come to an end Examining the last Nazi

*Sentencing and the Legitimacy of Trial Justice* Ralph Henham, 2013-03-01 This book discusses the under researched relationship between sentencing and the legitimacy of punishment It argues that there is an increasing gap between what is perceived as legitimate punishment and the sentencing decisions of the criminal courts Drawing on a wide variety of empirical research evidence the book explores how sentencing could be developed within a more socially inclusive framework for the delivery of trial justice In the international context such developments are directly relevant to the future role of the International Criminal Court especially its ability to deliver more coherent and inclusive trial outcomes that contribute to social reconstruction Similarly in the national context these issues have a vital role to play in helping to re position trial justice as a credible cornerstone of criminal justice governance where social diversity persists In so doing the book should help policy makers in appreciating the likely implications for criminal trials of mainstreaming restorative forms of justice Sentencing and the Legitimacy of Trial Justice firmly ties the issue of legitimacy to the relevant context for delivering justice It suggests a need to develop the tools and methods for achieving this and offers some novel solutions to this complex problem This book will be a valuable resource for graduate students academics practitioners and policy makers in the field of criminal justice as well as scholars interested in socio legal and cross disciplinary approaches to the analysis of criminal process and sentencing and the development of theory and comparative methodology in this area
