material human need necessitas Without the necessitas component of the tax balance tax systems end up honoring only one of the three components of the tax equation and cease to reflect a coherent idea of justice The book will be of interest to academics and researchers working in the areas of tax law economics theology and history Christology and Global Ethics Martins, Alexandre A.,2023 This book offers a Christological account developed among the poor in Latin America and their experience of a God incarnated in history It places two realities together the academia where faith is object of studies and the grassroots community where faith is embodied The author introduces the reader to a contemporary Christological discussion from a Latin American liberating perspective with three essential characteristics first it is a Christology created from the reality of the poor and marginalized and at the same time oriented toward this reality as a pastoral resource Second its method goes beyond the polarization Christology from below and Christology from above Third it is a Christological essay that has a biblical text at its center Lk 4 16 30 as a starting point from where important theological disciplines are stressed such as systematic theology moral theology and liturgy In this way this book presents to the readers how different areas of theology are related and form a unity around the mystery of Christ and the faith experience of a Christian community Therefore it is an excellent book to initiate people in theological studies and method that can be used in theological classes in colleges schools and Catholic communities British Journal of Medical Psychology ,1923 Includes papers read before the Medical Section of the British Psychological Society

**The Industrial Revolution - Lost in Antiquity - Found in the Renaissance** Cort MacLean Johns, Ph.D.-HSG,2021-02-18 Ever increasing research evidence continues to mount Having started my research on the connection of the Hydraulis to the roots of the more recent Industrial Revolution at the University of St Gallen in 1989 over 30 years ago I continue to identify additional support for it We do not know whether the beginnings of an Industrial Revolution in Hellenistic Greece would have continued if not cut off by the Roman Empire s conquests Neither do we know whether the more recent latent Industrial Revolution could have risen up again in the 17th century without Vitruvius or Hero of Alexander s preserved writings The point of this book is to emphasize with new findings that had the Romans not stopped the growth of science and technology in the Hellenistic Period that it would have likely continued to develop into a full fledged Industrial Revolution Secondly the more recent Industrial Revolution borrowed heavily on the technology and science of the Hellenistic Period In the true sense of the Renaissance 17th century industrial progress largely picked up the written remnants of Antiquity to be able to continue on after a centuries long caesura **Industrial Revolutions** Cort MacLean Johns,2021-05-23 With reference to artefactual archaeological evidence and surviving manuscript documentation of the Hydraulis I find that a new dialectical discussion might better analyze and address the underlying understanding of the Steam Engines longitudinal provenance and therefore requires a redefinition the origins of Industrial Revolutions themselves from Ctesibius to the exploration of Mars The Industrial Revolution - Lost in Antiquity - Found in the Renaissance Cort McLean Johns Ph.D. - HSG,2021-03-05 Historians of Technology and Humanist Industrial

Rediscovering Humanitarianism Jessica Stroja, 2025-06-06 This book provides a new approach to understanding the histories of refugee resettlement and their relevance for contemporary emergencies By drawing on histories of faith based humanitarianism from 1917 to the present it explores how faith based organisations have engaged with refugee aid and the efforts of other secular humanitarian movements These understandings of humanitarianism and refugee resettlement are developed through the lens of faith based histories and intersections with secular humanitarian movements The book uses these histories to understand trends in humanitarian development and interactions between multiple organisations that have held ongoing roles in refugee emergencies Exploring interactions between these organisations provides new ways of understanding humanitarianism and trends in the delivery of refugee aid As the number of refugees requiring assistance continues to increase globally understanding trends in this historical development has never been more important This gives new ways to understand the provision of refugee aid via a broad spectrum of organisations rather than groups from separate categories acting in isolation Despite the frequent marginalisation of faith based organisations the book shows they have reframed humanitarian efforts This provides researchers policy makers and practitioners with new ways to approach this challenge and the historical development of refugee aid General Catalogue of the Public Library of Detroit, Mich Detroit Public Library, 1899
