Images of Women and Gender Identity in John Marston's Plays Sukanya Behura Senapati, 2023-10-16 Images of Women and Gender Identity in John Marston's Plays contends that although the Jacobean period was known for its misogyny and John Marston for his quarrels with his fellow poets Marston's plays deserve

reevaluation and critical interrogation through a feminist lens Arguing that patriarchy and ownership of private property are intimately meshed together Senapati posits that Marston interrogates the misogyny of the Jacobean period by delimiting two predominant myths that have crippled women through the centuries the beauty myth and the myth of the weak and sexual female both constructs of patriarchy Through the tracing of the history of five prototype images of women in literature wench wife widow sex worker and witch from antiquity to the early modern period Sukanya Behura Senapati demonstrates Marston's explosions of binary gender categorizations to open space for experimental constructions of fluid and flexible gender identities
